

PROBE THE DEPTHS OF THE UNIVERSE FOR ONLY \$2.95

The Astronomer's Library of the Universe for only \$2.95—a \$76.75 value!

You simply agree to buy 3 more books
—at handsome discounts—in the next 12 months.

Serious astronomers will be thrilled with this fascinating 5-volume collection:

The Astronomer's Library of the Universe.

These critically acclaimed books offer advanced scientific theories about quasars, black holes, white dwarfs, and practical advice on observing galaxies, stars, and nebulae.

Here's what your collection will include:

THE CAMBRIDGE DEEP-SKY ALBUM. Philip Teece. Photos by Jack Newton. A spectacular gallery of celestial photography featuring more than 90 full-color plates, expert text and full details on how to duplicate the feat with the average telescope and camera (including darkroom technique). Publisher's Price: \$1995.

PRACTICAL ASTRONOMY WITH YOUR CALCULATOR. Second Edition. Peter Duffett-Smith. A superb math aid for the amateur astronomer. How to solve problems related to comets, time systems, orbits and motions, with your pocket calculator. Combobound. Publisher's Price: \$10.95

OBSERVATIONAL ASTRONOMY FOR AMATEURS. Fourth Edition. J. B. Sidgwick. Completely revised by James Muirden. This classic reference presents the practical basics that turn any beginner into a knowledgeable observer. Over 350 updated pages, with a new 40-page bibliography. Fully illustrated. Publisher's Price: \$1995.

THE MOMENT OF CREATION: An Introduction to Big Bang Physics: From Before the First Millisecond to the Present Universe. James S. Trefil. An eloquent account by the author of *From Atoms to Quarks* of how new versions of the grand unified theory are bringing us closer to an understanding of the elusive first moment of spacetime. Publisher's Price: \$1595.

THE RED LIMIT: The Search for the Edge of the Universe. Second Edition. Timothy Ferris. The widely acclaimed book, winner of the American Institute of Physics Prize for science writing in 1977, has now been revised and updated, with 100 new photos added, by the author of *Galaxies*. Softbound. Publisher's Price: \$995.

4 Good Reasons to Join

1. The Finest Books. Of the hundreds and hundreds of books submitted to us each year, only the very finest are selected and offered. Moreover, our books are always of equal quality to publishers' editions; never economy editions.

2. Big Savings. In addition to getting the Astronomer's Library of the Universe for only \$2.95 when you join, you keep saving substantially—up to 30% and occasionally even more. (For example, your total savings as a trial member—including this introductory offer—can easily be over 50%. That's like getting every other book free!)

3. Bonus Books. Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings up to 70% off the publishers' prices.

4. Convenient Service. At 3-4 week intervals (16 times per year) you will receive the Book Club News, describing the Main Selection

and Alternate Selections, together with a dated reply card. If you want the Main Selection, do nothing and it will be sent to you automatically. If you prefer another selection, or no book at all, simply indicate your choice on the card, and return it by the date specified. You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.

ASTRONOMY BOOK CLUB

Riverside, New Jersey 08075

Please accept my application for trial membership and send me *The Astronomer's Library of the Universe* (00565) for only \$2.95. I agree to purchase at least three additional Selections or Alternates over the next 12 months. Savings range up to 30% and occasionally even more. My membership is cancellable any time after I buy these three books. A shipping and handling charge is added to all shipments.

No-Risk Guarantee: If you are not satisfied—for any reason—you may return the *Astronomer's Library of the Universe* within 10 days and your membership will be canceled and you will owe nothing.
