

Sturdy, Stackable Natural Beechwood Bookshelves

At a price you would expect to pay for plastic!

Perfect for books, display or storage

This quality shelving system is made of natural European beechwood. A hard wood tough enough to be used for flooring and beautiful enough to be used for fine furniture. Do not confuse this item with "wood tone" or plastic imitations. Our low price is made possible by volume purchases, not by inferior material.

Sets up in seconds... without tools!

No tools, screws or glue required. Just take it out of its flat carton, fold the sides out, and the shelves practically fall into place. And natural beechwood is attractive... even unfinished. So the unit can be used immediately. Of course, you can also stain, varnish, or paint them if you prefer.

Stack them... they're interlocking

Each free-standing unit is 27 3/4" w x 11 1/2" d x 37" h and is designed to interlock and stack. This means you can actually create your own wall unit. And if you move, just fold them down and take them with you.

30 Day Money-Back Guarantee

Our low price for this European import is only \$39.95 per unit (plus \$6.95 shipping and insurance per unit)... probably less than you would have to pay for a comparable unit in plastic. And as with all items you purchase by mail from Barnes & Noble, you may return it within 30 days for a full refund or credit to your charge card.
