How to Become a "Black Belt" in Verbal Self-Defense

For anyone who's ever been pulverized by put-downs, rankled by reproaches, or irritated by insinuations, here's a revolutionary book that devotes itself *completely* to tactics of verbal self-defense. *The Gentle Art of Verbal Self-Defense* teaches you how to defend yourself *diplomatically* in delicate family situations and in the hard-nosed business world. And this book is so thorough and easy-to-understand that you can read it once and become the kind of person everybody admires—the person who stays unruffled during confrontations, who always says the right thing, and who enjoys good relations with everyone.

Stop Them with a Few Words

This book explains the various ways that people will try to bait you and then it tells you how to *stop* them with a few carefully chosen words. It trains you to defend yourself with a simple eloquence that will subdue your verbal opponents. And it shows you how and when to use blunt honesty, agreement, humor, flattery, and distraction.

Keep Cool During Arguments

The Gentle Art of Verbal Self-Defense also helps you avoid the self-defeating, overly emotional attitudes that many people assume during arguments. Once you've read this book, you'll *never again* lose an argument by being sullen, uncontrollably angry, peevishly defensive, or apologetic. You'll have gained enough savvy not to be thrown by hostile remarks.

Learn to Handle All Attacks

The Gentle Art of Verbal Self-Defense covers all the types of verbal attacks and attackers you're likely to encounter. And it explains both attacks and defenses with helpful features like these:

- The 8 Types of Verbal Attacks
(and how to fight them.)
- The 4 Principles of Verbal Self-Defense
(from *knowing* you are under attack to *following through* with your counter-attack.)
- The 5 Personalities & How They Communicate
(Is your boss a "leveller?" Is your mother a "blamer?"
Is your husband a "distracter?")
- Dialogues that Show Effective & Ineffective
Defense Strategies
- Instructions on Voice Control & Body Language

These features will teach you how to deal with all types of people, including bullying bosses, backbiting co-workers, guilt-producing mothers, nagging wives, condescending husbands, and many others. And you'll

discover how to counter *all* the varieties of verbal abuse — from subtle put-downs to out-and-out attacks.

Save Yourself Years of Mistakes

The Gentle Art of Verbal Self-Defense gives you a complete education in communication, an education that will improve the quality of your personal and professional relationships. On your own, it might take you years of trial and error, of fights and misunderstandings, to learn all the lessons of this book. So, why not wise up *now* by ordering your copy of the book today?

The Gentle Art of Verbal Self-Defense, originally \$12.95, now costs only \$6.95. And, should you want to return the book, you can do so and have your money refunded with no questions asked.

About the Author

Psycholinguist Suzette Haden Elgin has presented her innovative self-defense principles in a variety of formats. She has given workshops and seminars all over the U.S., including verbal self-defense sessions for doctors, lawyers, and other professionals. Dr. Elgin has also created a self-defense tape and a training manual for people who teach her self-defense techniques.

The Grizzly Bear

Thomas
McNamee

*Through the delightful story of seven months in the lives of a female grizzly and her two young cubs, the reader learns virtually all that is known about the physiology, mating habits, feeding, predation and aggression of *Ursus arctos horribilis*—the grizzly bear. Follow this family, from April until they hibernate again in late October, around their home range in and near Yellowstone Park. See how the cubs nurse and nap, and take cover—*instantly*—at the approach of another bear or of man; dig for biscuit-root, gorge on ripe huckleberries, and mow down whole meadows of spring beauties; chase ground squirrels and tear up hillsides in pursuit of pocket gophers; stalk each other in obstreperous play that prefigures the remarkable dexterity and brute power they will have as adults. Lesson by lesson, they grow toward the unique intelligence that makes the grizzly bear both a marvel of adaptive flexibility and a singularly wild wild animal. (Illustration: Gordon Allen)*
