The Cynic's Lexicon

By Jonathan Green

An unashamed collection of utterly amoral advice. This is the world of the traditional dictionary of quotations — worthy, upright and, above all, moral — turned deliberately upside down. Many of those whose sayings are quoted — including Oscar Wilde, H. L. Mencken, Fran Lebowitz, Dorothy Parker, George Orwell, Mae West, Richard Nixon and Margaret Thatcher — also appear in the more respectable volumes. But what they say here deals specifically with the factual, not the fantasy, world.

A Very Unusual Dictionary of the Origin of Symbols.

20 years ago, Juan Eduardo Cirlot, the leader of the School of Barcelona modern art movement, assembled a fascinating dictionary of symbolic words and imagery. This dictionary soon became a classic. These mysterious and familiar symbols, drawn from the religions, arts and beliefs of East and West, cover literally centuries of symbolic imagery spanning ancient times to modern.

Learn about the universal fascination with the dragon; the subtle power of colors and numbers; the ancient mysteries of alchemy, the Tarot, and the Cabala; about mythology, cosmology, and dreams and more.

- Here are just a few surprising facts about symbols you will find in this book:
- **The Acrobat.** The symbol of reversal, with the power to upset the established order.
 - **The Crow.** The great civilizer and the creator of the visible world.
 - **The Dance.** The universal symbol for creation.
 - **Number Nine.** The triplication of the triple—a complete image of the three worlds: the corporeal, the intellectual, and the spiritual.
 - **The Stranger.** Stands for the possibility of unseen change.

For Christmas, give your friends an overview of science — give them Science News

This Christmas share **SCIENCE NEWS** with your friends. They will appreciate the opportunity to learn about new scientific developments and discoveries that can affect their lives, their jobs, their future. And in this day of changing social directions, they will especially appreciate the perspective **SCIENCE NEWS** gives to the issues involving science and society.

SCIENCE NEWS is the ideal gift for busy executives, professional people, scientists in search of an overview of all major fields of science, science teachers and students.

Why? Because it is planned for people on the go. It reports key developments clearly, accurately, concisely — in about an hour's reading time a week. For someone with no more than an hour to spare, **SCIENCE NEWS** is a reliable summary of important news. For the reader with more leisure, it is a guide to subjects worth pursuing in more detail in other scientific journals.

SPECIAL CHRISTMAS SAVINGS!

Your first gift subscription to **SCIENCE NEWS** is \$29.50. Each additional one-year subscription is only \$25.00 — and you may include your own renewal or new subscription at this money-saving rate.

SEND YOUR GIFT ORDERS NOW!

Use the convenient postage-paid reply card opposite this message. Or, if someone else has already used it, fill in the order form at the right and mail it today.
