

The quick and easy way to learn a foreign language!

Based on the U.S. Military "Speed-up" Method of Language Learning.

Programmed for Rapid Learning!

It's been scientifically proven that we remember words we *hear* better than words we *see*. That's why you'll find the two audiocassettes in each Language / 30 package more useful than all the language books money can buy. Just start listening to the tapes, repeat the foreign phrases a few times and, believe it or not, you'll begin speaking like a native. It's that simple!

Remember, Language / 30 is a learning tool that *works*. It incorporates the "speed-up" method of language learning—the same method used to train U.S. government personnel who work overseas.

With Language / 30, you can practice your target language anytime, anywhere. You won't have to set aside hours just for language study. You can listen to Language / 30 while you're getting dressed, eating, driving to work, or even jogging. Whether you're studying French, Russian, Swahili, or any of the other 23 languages listed below, you'll improve your speaking fluency and listening comprehension *each time* you play the Language / 30 tapes.

Introduced by Language Expert Charles Berlitz.

Each Language / 30 program features native voices speaking the most important and commonly used conversational phrases. You'll learn all the words you need to know for greetings, introductions, requests, and general conversations in hotels, restaurants, stores, theaters, and other places. And each cassette is introduced by world-renowned linguist Charles Berlitz, who explains the social customs and etiquette of the country.

So, whether you're going abroad for a short trip or an extended stay, you'll find that the fluency you've gained from Language / 30 will make your visit easier, more pleasant, and more enriching. Instead of being a "stranger in a strange land," you'll be able to converse freely with the natives in their own language.

Each program comes with two 45-minute cassettes, convenient phrase dictionary, in a compact, 6" x 7" waterproof vinyl case.

... the Heavens and the Earth

A Political History of the Space Age

By
Walter A. McDougall

Basic Books, Inc., 1985, 555 pages, 9½" x 6½", hardcover, \$25.95

In this comprehensive political history of the space race, Walter McDougall takes us from the utopian fantasies of the nineteenth-century pioneers in rocketry to today's Star Wars scenarios. *The Heavens and the Earth* carries the reader from late Tsarist Russia, where rocketry and revolution first joined forces, to the perplexed America of 1957 wondering how to adjust its liberal institutions to the challenge of Sputnik, and to the Space Age America of JFK, LBJ, NASA, and the Air Force "space cadets."

Ranging from the secret deliberations of Kremlin commissars to the vagaries of systems analysis and Space Age theology, *The Heavens and the Earth* is a global book about a global subject.
