

**Recommended by the
American Museum of
Natural History.**

FEATURES:

- 200 illustrations, 60 in full color.
- Maps—giving locations of dinosaur discoveries.
- A guide to the world's dinosaur museums, and more!

**TAKE
DINOSAURS 99¢**
for only

when you join the
Natural Science Book Club.

**YOU SIMPLY AGREE TO
BUY ONE MORE BOOK
AT A HANDSOME DISCOUNT
WITHIN THE NEXT 12 MONTHS.**

The most definitive and complete look at all that is known about dinosaurs is also a magnificently illustrated and annotated record of their natural history. Paleontologist Edwin Colbert explores their variety, describes the world they lived in, recounts the story of their unearthing just over 150 years ago, along with a unique glossary of names and terms, and other little known facts about their mystery. Were they hot- or cold-blooded? AND What made them disappear? Examine all these questions and more in *Dinosaurs: An Illustrated History*. Publisher's Price: \$30.00.

**A \$30.00
RETAIL VALUE**

The Natural Science Book Club is a unique book club devoted to bringing you exciting, refreshingly different books on all areas of the natural sciences. From the life story of early man to the death of the solar system... all the wonders of the natural world are revealed to members of the Natural Science Book Club.

MEMBERSHIP BENEFITS • In addition to getting *Dinosaurs: An Illustrated History* for only 99¢ when you join, you keep saving substantially on the books you buy. Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings of up to 65% off the publishers' prices. At 3-4 week intervals (16 times per year), you will receive the Book Club News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. If you want the Main Selection, do nothing, and it will be sent to you automatically. If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.

Natural Science Book Club 4-BM8
Riverside, New Jersey 08075

Please accept my application for trial membership and send me *Dinosaurs: An Illustrated History* (42281), billing me only 99¢. I agree to purchase at least one additional Selection or Alternate over the next 12 months. Savings range up to 30% and occasionally even more. My membership is cancelable any time after I buy this one book. A shipping and handling charge is added to all shipments.

No-Risk Guarantee: If you are not satisfied—for any reason—you may return *Dinosaurs: An Illustrated History*, within 10 days and your membership will be canceled and you will owe nothing.

THE NATURE OF REALITY

By Richard Morris, author of *Time's Arrows*

These are just a few of the extraordinary theories scientists are now exploring: Space may have not three, but nine or ten dimensions. The universe may have been created out of nothing — and it is entirely possible that at some point in the future it may return to nothing. There may be other universes than our own — not other galaxies, other universes. The number of possible other universes may be infinite, and yet we may never be able to make any sort of contact with them. The universe may be splitting off into countless replicas of itself at every moment. It has been established that approximately 90 percent of the mass in the universe is made of a mysterious dark matter that scientists do not yet understand. . . . Richard Morris separates scientific fact from scientific speculation, displaying his rare gift for explaining the most sophisticated and avant-garde concepts in terms the reader can enjoy. As we reshape old ideas about time, space, force and matter, *The Nature of Reality* shows us that reality is quite a bit different from what we thought it was only a few years ago. Reality is a mysterious thing.

Oral Sadism and the Vegetarian Personality

Edited by Glenn C. Ellenbogen

Oral Sadism and the Vegetarian Personality is the book that mental health professionals, their patients and everyone else who thinks someone is crazy — but who? — have been waiting for. Difficult questions have finally been answered by psychologists and other mental health professionals who have proven themselves capable of laughter by publishing these psychological spoofs in a widely read satirical journal aptly titled the JOURNAL OF POLYMORPHOUS PERVERSITY.®

No area of psychology or psychiatry is immune from this irreverent treatment. Nowhere else can the clinician find such practical aids and new techniques as how to diagnose patients by the way they park their cars at the clinic, come to understand the Little Prince's psychopathology as it has *never* been understood before and learn how to apply the practical principles of Vigilante Effectiveness Training (V.E.T.) in helping crime victims cope with their stress disorder.

DO'S and TABOOS

Around the World

A Guide to International Behavior

Edited by Roger E. Axtell

This fascinating guide provides a lively blend of facts, tips and cautionary tales — offered by more than five hundred international business travelers. Just about every *faux pas* the well-meaning traveler might make is anticipated and handled, from the seven deadliest sins of international misunderstanding to the fine points of body language (presented in the world's first "International Gesture Dictionary"). Plus . . . a special 52-page section provides a quick reference guide to the manners and mores of 96 countries.
