

DO'S and TABOOS

Around the World

A Guide to International Behavior

Edited by Roger E. Axtell

This fascinating guide provides a lively blend of facts, tips and cautionary tales — offered by more than five hundred international business travelers. Just about every *faux pas* the well-meaning traveler might make is anticipated and handled, from the seven deadliest sins of international misunderstanding to the fine points of body language (presented in the world's first "International Gesture Dictionary"). Plus . . . a special 52-page section provides a quick reference guide to the manners and mores of 96 countries.

When does a nod mean no? In what countries is a handshake an insult? Where is the gift of a clock or watch considered the kiss of death?

*"Roger Axtell is an international Emily Post."
— The New Yorker*

"Imagine the excitement, then, of being able to build your own, a real clock, that will keep time to the second — and of being able to build one largely out of *paper* — of being able to build it, in fact, out of the substance of this very book. James Smith Rudolph gives you virtually all the material you need, all the directions and instructions, and it is now up to you, working very carefully and slowly, to build yourself a time-piece that Galileo would have given his eyeteeth to own."

— Isaac Asimov

Sturdy, Stackable Natural Beechwood Bookshelves

At a price you would expect to pay for plastic!

Perfect for books, display or storage

This quality shelving system is made of natural European beechwood. A hard wood tough enough to be used for flooring and beautiful enough to be used for fine furniture. Do not confuse this item with "wood tone" or plastic imitations. Our low price is made possible by volume purchases, not by inferior material.

Sets up in seconds... without tools!

No tools, screws or glue required. Just take it out of its flat carton, fold the sides out, and the shelves practically fall into place. And, natural beechwood is attractive... even unfinished. So the unit can be used immediately. Of course, you can also stain, varnish, or paint them if you prefer.
