This completely revised, updated and extended new edition of *The Care Of Reptiles and Amphibians in Captivity* is an illustrated handbook for those wishing not only to keep, but also to breed, a wide range of reptiles and amphibians. It is designed to be used by the novice as well as by those hobbyists and students of herpetology who have perhaps kept a few examples of this fascinating group of animals and wish to expand the scope of their interest, particularly in breeding.

The book is illustrated throughout with explanatory line diagrams and with 50 of the author's black and white photographs. Forty-eight of his superb color photographs show some of the most attractive subjects. An appendix on the laws pertaining to the keeping of these animals is included.

# The Dictionary of By Tom Burnam MISINFORMATION

A remarkable book that contains enough information to help you win bets the rest of your life:

- The bagpipe was not a Scottish invention
- London's Big Ben is neither a clock nor a tower
- Robert Fulton did not invent the steamboat, and the boat he built was not called the Clermont
- Cleopatra was not Egyptian
- Scores of persons had flown nonstop across the Atlantic before Lindbergh
- Edison did not invent the light bulb
- Mark Twain was not born in Hannibal, Missouri
- And, alas, there is no such thing as an aphrodisiac

# **UNIVERSAL ATLAS**

# RAND McNALLY'S MOST POPULAR **WORLD ATLAS SERIES**

For generations, Rand McNally has been consistently both the largest and most distinguished of American publishers. More people look to Rand McNally when choosing an atlas than any other, and the *New Univer*sal Atlas is the capstone of their internationally renowned line.

### AN EXCLUSIVE OFFER FROM **BARNES AND NOBLE**

By special arrangement with Rand McNally, Barnes and Noble can now offer this outstanding home reference for the exclusive low price of **only \$19.95**. If you don't already own an atlas, this is an irresistible opportunity to buy the very best, because an atlas of this calibre is virtually impossible to find at this price.

### WHY THE NEW UNIVERSAL IS THE WORLD'S **BEST ATLAS**

The map series in the New Universal Atlas has already become a classic. Each map contains the most cur-

rent cartographic information available, updated to reflect the political and topographical realities of today. In addition to the expertly detailed and exquisitely designed maps in the New Universal Atlas, you'll find a wealth of completely revised charts and tables, packed with fascinating information like:

• World Geographical Data: longest rivers, principal mountain ranges, largest deserts, etc.

World Political Information: population, capitals,

forms of government, etc.

Largest Metropolitan Populations including all major

cities throughout the world.
