A Very Unusual Dictionary of the Origin of Symbols.

20 years ago, Juan Eduardo Cirlot, the leader of the School of Barcelona modern art movement, assembled a fascinating dictionary of symbolic words and imagery. This dictionary soon became a classic. These mysterious and familiar symbols, drawn from the religions, arts and beliefs of East and West, cover literally centuries of symbolic imagery spanning ancient times to modern.

Learn about the universal fascination with the *dragon*; the subtle power of *colors* and *numbers*; the ancient mysteries of *alchemy*, the *Tarot*, and the *Cabala*; about mythology, cosmology, and dreams and more.

Here are just a few surprising facts about symbols you will find in this book:

- **The Acrobat.** The symbol of reversal, with the power to upset the established order.
- **The Crow.** The great civilizer and the creator of the visible world.
- **The Dance.** The universal symbol for creation.
- **Number Nine.** The triplication of the triple—a complete image of the three worlds: the corporeal, the intellectual, and the spiritual.
- **The Stranger.** Stands for the possibility of unseen change.

The Cave of Lascaux

The final photographs
By Mario Ruspoli

While the glaciers made their last advance and retreat thousands of years ago, cavemen were painting in the underground galleries and tortuous chambers of Lascaux; it was a sanctuary filled with evidence of the human spirit that we are only now beginning to discern. The unprecedented skill and patience of Mario Ruspoli's imaginative yet scrupulously scientific approach have opened up new, previously unexplored paths of research. The content and meaning of the frescoes are discussed by Ruspoli and by other experts and scholars in prehistoric art.

Lascaux was sealed in 1963 by order of the Ministry of Culture, its atmosphere monitored to restore the ancient conditions. Ruspoli was chosen to permanently record Lascaux's wonders in 1981. After three years of filming and photographing the inaccessible wonders of the cave, Ruspoli presents here a thrilling account of the cave and the process of recording the cave's contents. In our lifetimes, this will be the broadest, richest and last view of the Stone Age life and world that is Lascaux.
