

The Great Journey

The Peopling of Ancient America

By Brian M. Fagan

The Great Journey is an account of the longest and most demanding trek in history—the peopling of ancient America. Over hundreds of thousands of years, early humans hunted their way from tropical homelands in Africa, across Asia to the frontiers of the Arctic and the gateway to America. In so doing they had to learn how to make fire, to sew warm clothing and to hunt the formidable mammoth. With these hard-won skills they conquered the last great unpeopled continent on earth and established a big-game hunting way of life that flourished at the end of the Ice Age. Their descendants created the rich array of cultures found by Columbus. This readable book, fully illustrated with maps, photographs and reconstruction drawings, gives the most authoritative and up-to-date account of the first Americans yet produced.

—from the publisher

“By a writer with a good track record . . . I recommend Fagan’s book.”
—James Michener

Thames and Hudson, 1987, 288 pages, 9¼" x 6¼", hardcover, \$19.95. ISBN 0-500-05045-7

The Complete BOOK OF FOOD

By Carol Ann Rinzler

Discusses food from a consumer-oriented, medical and nutritional point of view. It is the first book ever to present ordinary, everyday foods as **individual health products**, complete with side effects and medical interactions. This unique approach makes this book invaluable for anyone on a diet—whether for weight loss or medical reasons—and is a fascinating eye-opener for the general reader as well.

Includes:

- A nutritional profile of each food
- A detailed guide to the nutrients in each food
- Foods that cause allergic reactions
- Foods that should be restricted or excluded from certain diets
- Medical uses and/or benefits
- Food/drug interactions

IT LIGHTS UP IN THE DARK!

Barnes and Noble Proudly Presents MERCURY — A World Class Illuminated Globe

A globe is like an encyclopedia or Bible — no educated home is complete without one. Maps are all very well and good, but only the three-

Includes 25-watt bulb, 6 ft. cord. All parts UL listed.

dimensionality of a globe can accurately represent the shape and proportions of our planet — it's a "hands-on" learning aid the whole family can use.

And now your family can enjoy discovering a new world with our MERCURY Illuminated Globe. Made in Italy by Nova Rico — the premier globe-makers of Europe — this impeccably detailed, completely up-to-date model of the earth stands an impressive 18". And its quality construction of high-frequency welded polystyrene guarantees it for years of use.

An Earthshaking Bargain at Only \$29.95 Barnes and Noble is proud to offer the MERCURY, which usually sells at \$48.95, for the astonishingly low price of only \$29.95. Never before — and probably never again — will a globe of such high quality be offered at such a low price.

Free Globe Handbook Gives You a World of Information To ensure that you and your family get the full enjoyment out of your globe, we've included a free, fully illustrated handbook that not only tells how to use the

globe, but also explains earth-space relationships, the planets, space exploration and much more.

Two Globes in One THE MERCURY is a wonderful tool for learning about the face of the earth. Perfectly executed and easy to read, it reveals the earth's topography, elevation, vegetation patterns, ocean currents, longitudes and latitudes, international dateline and more than 3600 place names — from the tallest peaks to the tiniest islands!

Turned off (left) The Mercury depicts land and ocean topography — switched on (right) the political world, including current boundaries and international borders, is revealed in eight vivid colors.

And if that weren't enough, the MERCURY *Glow*s in the Dark. Turn it on and its illuminated surface takes on an entirely new dimension, revealing physical and national boundaries and country names in 8 brilliant colors.
