*Discover the Stars* leads you on a tour of all the stars and constellations visible with the naked eye and introduces you to deep-sky objects that can be seen with binoculars or a simple telescope. The tour is conducted by the editor of *Astronomy* magazine, Richard Berry, whose two-color, computer-plotted sky maps and clear instructions make stargazing fun and productive from your first night out. The heart of *Discover the Stars* is two sections of big, beautiful sky maps and charts. The first section features 12 maps that show the entire sky overhead as it appears during each month of the year. These outline all the constellations visible anywhere in the Northern Hemisphere, and the accompanying text reveals the rich mythology that surrounds the star groups. The second section is made up of 23 star charts that depict smaller regions of the sky in great detail. These charts give the names of key stars and lead you to fascinating features such as stars with unusual colors, double stars, variable stars, nebulae and galaxies.

— from the publisher

Harmony Books, 1987, 119 pages, 9 1/4" x 7 1/2", paperback, \$10.95 ISBN 0-517-56529-3

With concise, readable definitions of thousands of scientific terms—plus helpful illustrations, tables and charts—this set is a complete library of knowledge on five major sciences.

And best of all, you get all five softcover volumes—a \$40.75 value—for only \$2.95.

### ASTRONOMY

"Clear, straightforward and concise... thoroughly cross-referenced... a welcome addition to my library."—*Isaac Asimov*

### BIOLOGY

"An excellent helpmate providing concise and easy to understand definitions of more than 3,100 commonly used terms."—*Concise Book Reviews*

### BOTANY

"One of the most comprehensive dictionaries ever to originate in the plant sciences."—*Herbertia*

## More than 1,500 pages of scientific definitions... Take these five FACTS ON FILE SCIENCE DICTIONARIES for only \$2.95

as your introduction to the Natural Science Book Club

You simply agree to buy three more books—at handsome discounts—within the next 12 months.

### MATHEMATICS

"High quality... the definitions are written in clear, crisp English with a minimal use of technical terms."—*Choice*

### PHYSICS

"The most important and commonly used terms in the ever-expanding field of physics are explained."—*Science News*

To get the five FACTS ON FILE SCIENCE DICTIONARIES—a \$40.75 value—for only \$2.95, return the coupon today.

**MEMBERSHIP BENEFITS** • In addition to getting the Facts on File Science Dictionaries for only \$2.95 when you join, you keep saving substantially on the books you buy. • Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings of 65% off the publishers' prices. • At 3-4 week intervals (16 times per year), you will receive the Natural Science Book Club News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • If you want the Main Selection, do nothing, and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.

### Natural Science Book Club

4-BT8

Riverside, New Jersey 08075

Please accept my application for trial membership and send me the Facts on File Science Dictionaries (48100) billing me only \$2.95, plus shipping and handling. I agree to purchase at least three additional Selections or Alternates over the next 12 months. Savings range up to 30% and occasionally even more. My membership is cancelable any time after I buy these three additional books. A shipping and handling charge is added to all shipments.

**No-Risk Guarantee:** If I am not satisfied—for any reason—I may return the Facts on File Science Dictionaries within 10 days. My membership will be canceled, and I will owe nothing.
