# The quick and easy way to learn a foreign language!

Each program comes with two 45-minute cassettes and a convenient phrase dictionary in a compact, 6" x 7" water-proof vinyl case.

**ONLY \$14.95 each**

Based on the U.S. Military "Speed-up" Method of Language Learning

Programmed for Rapid Learning!

It's been scientifically proven that we remember words we *hear* better than words we see. That's why you'll find the two audiocassettes in each Language / 30 package more useful than all the language books money can buy. Just start listening to the tapes, repeat the foreign phrases a few times and, believe it or not, you'll begin speaking like a native. It's that simple!

Remember, Language / 30 is a learning tool that works. It incorporates the "speed-up" method of language learning—the same method used to train U.S. government personnel who work overseas.

With Language/30, you can practice your target language anytime, anywhere. You won't have to set aside hours just for language study. You can listen to Language / 30 while you're getting dressed, eating, driving to work, or even jogging. Whether you're studying French, Russian, Swahili, or any of the other 28 languages listed below, you'll improve your speaking fluency and listening comprehension *each time* you play the Language/30 tapes.

## Speak with the Ease of a Native

Each Language/30 program features native voices speaking the most important and commonly used conversational phrases. You'll learn all the words you need to know for greetings, introductions, requests, and general conversations in hotels, restaurants, stores, theaters, and other places. And world-renowned linguist Charles Berlitz, explains the social customs and etiquette of the country.

So, whether you're going abroad for a short trip or an extended stay, you'll find that the fluency you've gained from Language/30 will make your visit easier, more pleasant, and more enriching. Instead of being a "stranger in a strange land," you'll be able to converse freely with the natives in their own language.

Which of these 31 languages would you like to speak?

1232628. Arabic	1429232. Irish	1232800. Spanish
1232636. Chinese	1232727. Italian	1232818. Swahili
1232644. Danish	1232735. Japanese	1232826. Swedish
1232651. Dutch	1232743. Korean	1232834. Tagalog (Filipino)
1366665. Finnish	1429224. Latin	1363316. Thai
1232669. French	1232750. Norwegian	1232842. Turkish
1232677. German	1232768. Persian	1232859. Vietnamese
1232685. Greek	1300375. Polish	1516541. Yiddish
1232693. Hebrew	1232776. Portuguese	1232867. English for Spanish Speakers
1232701. Hindi	1232784. Russian	
1232719. Indonesian	1232792. Serbo-Croatian	

**ONE YEAR CASSETTE WARRANTY** Educational Services, Washington, D.C. warrants the cassettes of each LANGUAGE/30 course free of defects in materials and/or workmanship for a period of 12 months from date of purchase and agrees to repair or replace any defective cassette at no charge.

# THE Computer AND the Mind

AN INTRODUCTION  
TO COGNITIVE  
SCIENCE

By  
Philip N. Johnson-Laird

In a field choked with seemingly impenetrable jargon, Johnson-Laird has done the impossible: written a book about how the mind works that requires no advance knowledge of artificial intelligence, neurophysiology or psychology. The mind, he says, depends on the brain in the same way as the execution of a program of symbolic instructions depends on a computer, and can thus be understood by anyone willing to start with basic principles of computation and follow his step-by-step explanations.

— from the publisher

"Johnson-Laird has that rare gift of being a cognitive scientist of the first order, yet he addresses himself to the deep classical issues in psychology, in the philosophy of mind and in linguistics. He never avoids the hard problems in order to make life easier for the cognitive sciences. This is an admirable book."

— Jerome S. Bruner, psychologist

Harvard Univ. Press, 1988, 444 pages, 9 1/4" x 6", hardcover, \$29.50 ISBN 0-674-15615-3

**SigmaScan™**  
measures areas, lengths  
coordinates, angles,  
slopes, and more —  
IBM PC and Compatibles

Quickly and accurately digitize, measure and analyze photomicrographs, strip charts, X-rays, maps, and more — using your own PC.

- Areas, lengths, angles, and slopes
- X,Y digitizing
- User-defined units
- Standard ASCII data output (use in Lotus, dBase, etc.)
- Keyboard macros
- User-defined data transforms

Save hundreds of hours annually over manual measurement techniques. Automate complex analyses. Comes complete with software, choice of digitizing tablet, money-back guarantee and full year hardware warranty.

Sigma-Scan™ software is also available separately.
