THE BARNES & NOBLE

THE PRICE OF LOOKING IT UP JUST WENT DOWN!

While most unabridged dictionaries sell for as much as \$80, this 2,300-page *Webster's New Universal Unabridged Dictionary* can be yours for a fraction of its original price. Now more than ever, the time is right to make this superb dictionary your first choice—at home, in the office or the classroom.

The *Webster's New Universal Unabridged Dictionary* boasts extensive coverage of the English language, defining common and obscure words, words used in other centuries and words that reflect the rapid advances in science, technology, medicine, and changes in the syntax and idiom of American speech. As a result, the several hundred thousand vocabulary entries in this impressive dictionary include virtually all the words a heavy reader will ever need to look up.

The *Webster's New Universal Unabridged Dictionary* is strong on visuals, too. More than three thousand finely detailed and captioned drawings have been carefully selected to show the function, relative size, or appearance of the object you're looking up. These illustrations and 16 pages of full-color maps

help make the *Webster's New Universal Unabridged Dictionary* a fun, visually exciting learning experience, especially for children.

Other dictionaries may contain a few supplements, but the *Webster's New Universal Unabridged Dictionary* has over 150 pages of specialized information. And thumb-indexing makes information easy to access. Some of the features included are 16 pages of full-color maps and dictionaries of the Bible, myths and fiction, as well as a dictionary of foreign words and phrases.

While other large dictionaries use eye-straining type, this dictionary features good-sized print, with defined words standing out clearly in boldface. The *Webster's New Universal Unabridged Dictionary* provides a scholarly but practical reference for the general public, and Barnes & Noble, makes it available at an unbeatably low price.

THE QUICK AND EASY WAY TO LEARN A LANGUAGE!

The Timetables of History

This remarkable book is unmatched by any other history or reference volume. It tells us Who Did What concurrently through the ages. Each double-page spread in this massive volume details what diverse matters were taking place at the same time in each category: history and politics; literature and the theatre; religion, philosophy and learning; visual arts; music and science; technology and growth; and daily life.

It's been scientifically proven that we remember words we hear better than words we see. That's why you'll find the two audiocassettes in each Language/30 package more useful than all the language books money can buy. Just start listening to the tapes, repeat the foreign phrases a few times and, believe it or not, you'll begin speaking like a native. It's that simple!

Most Language/30 programs feature native voices speaking the most important and commonly used conversational phrases. You'll learn all the words you need to know for greetings, introductions, requests, and general conversations in hotels, restaurants, stores, theaters, and other places. And world-renowned linguist Charles Berlitz provides interesting information at the beginning of each tape on etiquette and social customs.

So, whether you're going abroad for a short trip or an extended stay, you'll find that the fluency you've gained from Language/30 will make your visit easier, more pleasant, and more enriching. Instead of being a "stranger in a strange land," you'll be able to converse freely with the natives in their own

language. Each program comes with two 45-minute cassettes and convenient phrase dictionary in a compact, waterproof vinyl case.

Which of these 31 languages would you like to speak?

MERCURY — IT LIGHTS UP IN THE DARK!

A globe is like an encyclopedia or Bible—no educated home is complete without one. Maps are all very well and good, but only the *three-dimensionality* of a globe can accurately represent the shape and proportions of our planet. For adults and children it is the best geographic learning aid available.

Barnes & Noble is proud to offer this magnificently detailed, completely up-to-date 18"-tall model of the world. The MERCURY is the result of the joint effort of two companies who are known world-wide for their cartographic achievements: Rand McNally, America's largest publisher of maps and atlases, and Nova Rico, the premier globe makers of Italy.

Quality Construction: MERCURY is made of a shiny, attractive and durable polystyrene, and the high-frequency welding on the equator, reinforced with heat welding, is the most advanced and long-lasting available. It's a globe your whole family can enjoy touching and learning from because it's completely washable.

The MERCURY is a wonderful tool for learning about the face of the earth. Perfectly executed and easy to read, it reveals the earth's topography, elevations, vegetation patterns, ocean currents, longitudes and latitudes, international date line, and more than 3,600 place names—from the tallest peaks to the tiniest islands!

As if that weren't enough, the MERCURY GLOWS IN THE DARK. When turned on, its illuminated surface takes on an entirely new dimension revealing physical and national boundaries and country names in *8 brilliant colors*. And it also serves as a night light for your child that can teach him or her geography at the same time.

Barnes and Noble is proud to offer the MERCURY, which usually sells at \$48.95, for the astonishingly low price of only \$29.95. Never before—and probably never again—will a globe of such high quality be offered at such a low price.

THE WORLD'S BEST ATLAS AT THE WORLD'S BEST PRICE!

For generations, Rand McNally has been consistently both the largest and most distinguished of American publishers. More people look to Rand McNally when choosing an atlas than any other, and the *Universal Atlas* is the capstone of their internationally renowned line.

By special arrangement with Rand McNally, Barnes and Noble can now offer this outstanding home reference for the exclusive low price of only \$19.95. If you don't already own an atlas, this is an irresistible opportunity to buy the very best, because an atlas of this calibre is virtually impossible to find at this price.

The map series in the *Universal Atlas* has already become a classic. Each map contains the most current cartographic information available, updated to reflect the political and topographical realities of today.

Newly revised charts and tables tell you

the facts and statistics behind the expertly detailed and exquisitely designed maps.

- World Geographical Data: longest rivers, principal mountains, the largest countries in area and population, the earth's movement and measurements, extremes of rainfall and temperature, more.
- World Political Information: area, population density, form of government, political status, capital and predominant languages of every country in the world.

Features in the new Rand McNally Atlas:

- Oversized, detailed 11" x 14½" format
- 120 full-color maps
- A full map devoted to each US state.
- Shaded relief for a 3-D effect.
- A new 95-page index with more than 75,000 place names.
