3-D VISIONS

412 S. Pacific Coast Highway, Second Floor, Redondo Beach, CA 90277

Storey Publ., 1990, 152 pages, 6" x 9", paperback, \$8.95

Composting is a natural way to put much of your household waste to productive use. Since 1975, *Let It Rot!* has helped countless gardeners recycle waste materials such as household garbage, grass clippings and ashes to create useful, soil-nourishing compost. Updated and revised for the 1990s, *Let It Rot!* includes:

- ★ A helpful guide to choosing the right materials for compost
- ★ A full discussion of the many uses of compost for gardens and lawns
- ★ Instructions for building the equipment necessary for a compost pile
- ★ Simplification of the technical terminology involved
- ★ A discussion of modern equipment.

— from the publisher

Saving seeds is a time-honored tradition — one that can be as simple as growing a few extra peas or beans for next year's use or as challenging as wintering over cabbage heads, waiting for the spring flower stalks.

This book will tell you all you need to know about how to raise, harvest and store seeds for the easiest-to-grow and most popular vegetables and ornamental plants. A money-saving way to preserve and share your favorite plants as well as select and perpetuate lines well suited to your garden and growing conditions.

Video Science Course for Children
 Winner of the Association for the Advancement of Science Award

"Only 8 Years Old...And He's Teaching Me About Science!"

"Look, Dad. Static electricity can actually bend water!"

Learn what makes an airplane fly.

Learn how machines work.

Learn about the powers of magnetism.

Acclaimed Video Science Course for Children Gives Your Child a Critical Early Advantage

A Head Start in Science for Children Ages 7-12.

It's no secret: American schools are failing science. The National Science Foundation and the U.S. Dept. of Education have reported this time and again. The average European or Japanese student gets 3 times more science instruction than the best U.S. science student!

World Ranking of Science Student Achievement*

1. England	5. Japan	9. Sweden
2. Hong Kong	6. Poland	10. Finland
3. Singapore	7. Norway	11. United States
4. Hungary	8. Australia	12. Canada

 (Performance in physical sciences, 4th-12th grades.)

In tomorrow's super-tech world, science will be essential for success. U.S. kids are already being left behind. But now there's something you can do about it.

Turn Your TV into a Teacher.

For the first time ever, your child can start learning science from the same learn-at-home video program proven in Europe.

Adventures Into Science is entertaining and effective. Winner of the prestigious Advancement of Science Award and a 1990 Parents' Choice Award! Kids learn

about the fantastic powers of light, gravity, magnetism, inertia, electricity — and much more. The *London Times* calls it "the most imaginative educational video program yet!"

Dozens of dazzling experiments and demonstrations excite kids' curiosity, and teach basic scientific principles.

Give Your Child What the Schools Aren't Providing.

Adventures Into Science includes everything to master basic scientific principles. Twelve colorful video lessons on six 50-minute videos that kids will watch over and over. Emphasizes the "hands-on" learning too absent in U.S. schools. A special Parent's Guide includes safe experiments for you and your children to do at home. You'll be thrilled when your child starts explaining science to you! Be delighted with his excited progress.

Satisfaction Guaranteed.

Adventures Into Science is affordably priced at just \$161.70*, payable in six convenient monthly credit card installments of only \$26.95* each. There's no risk: return within 15 days for a full refund. Order today! Give your child a critical early advantage in a competitive world.

*Plus one-time \$4.75 shipping/handling charge per set.
