Audubon Society's VideoGuides To Birds Of North America combine bird sights and sounds on videocassette for simple and accurate identification of 505 species shown in their natural habitats, something no book or field guide can.

In each volume, moving and still pictures show each bird's markings and distinctive behavior. Computer-animated range maps clearly communicate breeding and wintering areas for each species. Bird calls and sounds from the Cornell Laboratory of Ornithology complement informative narration and stunning visuals.

Whether you are an expert birder or simply enjoy identifying the birds that gather at your backyard feeder, the Audubon Society's VideoGuides promise hours of viewing pleasure. They are a valuable addition to any home library.
