## *Looking Into the Lung*

**Common Beliefs — Are They Nuggets of Truth or Fool's Gold?**

Rarely do we bother to question what "everyone" knows, let alone check whether common beliefs are supported by good research. But Alfie Kohn has systematically investigated how much wisdom there is in folk wisdom. The result is sometimes unsettling but always fun to read. For example:

**The full moon makes people crazy.** A careful analysis shows that the full moon has absolutely no effect on virtually any aspect of human behavior.

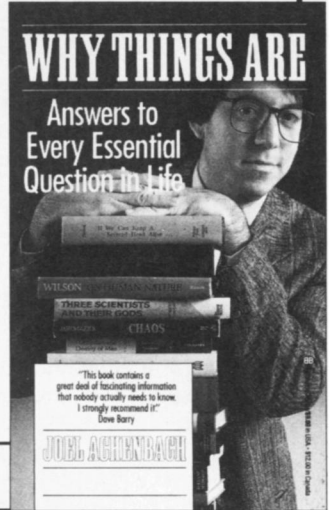

**"Not only does Joel Achenbach ask some great questions, but he actually answers them — and with a rigor that puts him somewhere between Socrates and Miss Manners."**

**An Incomplete Education**

When you can't help but wonder why we exist, why the Beatles broke up, or why people send fruitcakes at Christmas when nobody likes them, syndicated columnist Joel Achenbach wonders right along with you. From the dawn of time to yesterday's headlines, from baseball to the atom bomb, from ant farms to Pepperidge Farm, *Why Things Are* answers the perennial question, WHY? — from the publisher

**Carrots are good for your eyes.** Your body has stored up more than enough vitamin A to prevent night blindness. Eating more carrots won't help your sight one bit.

**The ultimate book on whitewater rafting in Grand Canyon!**

Now the excitement of a raft trip through the Grand Canyon has been recreated by a seasoned whitewater guide with a passion to share one of the world's most fantastic journeys. Michael Ghiglieri, a professional river guide for more than 17 years, has written the first book to describe that trip from the modern boatman's point of view.

From Lee's Ferry to Diamond Creek, Ghiglieri leads you down 226 miles of wild river and through some of the most breathtaking scenery on earth. Between the rapids, Ghiglieri relates tales of river runners past and present, lessons in geology and wildlife, observations on the impact of Glen Canyon Dam, and stories of Native American inhabitants. For anyone who has ever shared or contemplated that adventure, *Canyon* recreates an unforgettable ride. — from the publisher
