

Discover the wonders of all 108 elements with CHEMISTRY WORKS, the Computerized Periodic Table.

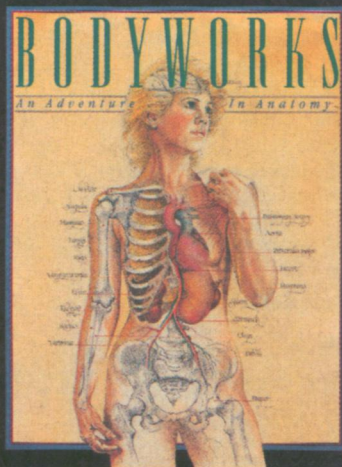

Features: ■ Detailed information about each element, from atomic weight and covalent radius to melting and boiling points. ■ Graphics of atomic structures and element properties. ■ Pull down menus for quick searching, sorting, and selecting from its vast database. CHEMISTRY WORKS is a comprehensive resource for students, teachers, chemical engineers, researchers, and hobbyists. Includes 5 1/4" and 3 1/2" media.

**System Requirements:** IBM PC or Compatible, 640K RAM memory, PC/MS DOS 3.3 or above, Hard Disk Drive (uses 1.5 MB), VGA, EGA, CGA, or Hercules Graphics, 5.25" or 3.5" disk drive. Optional: Microsoft Mouse or compatible.

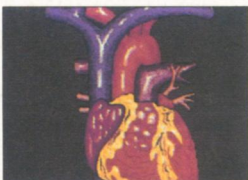

## Explore these innovative software packages

**BODYWORKS: An Adventure in Anatomy.** Colorful, comprehensive computer graphics guide you on a journey through the body. Study specific areas from head to toe, zoom in and out for a complete look at the world within you, and focus on internal systems—skeletal, muscular, nervous, digestive, cardiovascular, reproductive, and other major systems.

Nervous System

Human Heart

An extraordinary reference tool for medical students and institutions, families and individuals, young and old, BODYWORKS also includes a special Health Section with information on first aid, general fitness, sports injuries, and common illnesses. Includes 5 1/4" and 3 1/2" Media.
