

SCIENCE NEWS®

The Weekly Newsmagazine of Science

A Science Service Publication
Volume 142, No. 23, December 5, 1992

Alfred Scott McLaren	Publisher
Patrick Young	Editor
Laurie Jackson	Managing Editor
Vaughan	Editor
Janice Rickerich	Production/Design Director
Blair Burns Potter	Associate Editor
Janet Raloff	Senior Editor Environment/Policy
Ron Cowen	Astronomy
Bruce Bower	Behavioral Sciences
Elizabeth Pennisi	Chemistry/ Materials Science
Richard Monastersky	Earth Sciences
Carol Ezzell,	Life Sciences/ Biomedicine
Kathy A. Fackelmann	
Ivars Peterson	Mathematics/Physics
Larry Norland	Editorial Assistant
Daniel Pendick	Science Writer Intern
Connie Williams	Books/Resource Manager
Donald R. Harless	Advertising/Business Manager

SCIENCE NEWS (ISSN 0036-8423) is published weekly on Saturday, except the last week in December, for \$39.50 for 1 year or \$68.00 for 2 years (foreign postage \$6.00 additional per year) by Science Service, Inc., 1719 N Street, N.W., Washington, DC 20036. Second-class postage paid at Washington, DC, and additional mailing office. **POSTMASTER:** Send address changes to SCIENCE NEWS, P.O. Box 1925, Marion, OH 43305. Change of address: Four to six weeks' notice is required — old and new addresses, including zip codes, must be provided.

Icing the caffeine habit

I cannot believe that the results of research on caffeine addiction and withdrawal can be news to the scientific community ("Caffeine: The pain of going cold turkey," SN: 10/17/92, p.263). The Army seems to have known about it for half a century.

I was an infantryman in World War II. When for the first time our outfit was cut off from contact with the field kitchen and we had to eat emergency rations or nothing, I thought I was going to die in mid-morning from nausea and the most intense headache I had ever experienced. I recovered by late afternoon, but four or five days later the same thing happened again.

My companions perceived my distress, and by noon I was at the door of the medical tent, truly frightened by my horrendous symptoms. I described them to the medic, who immediately asked me if I drank coffee regularly. I answered in the affirmative. Then he asked me

This Week

- 388 Treat Hypertension, Nix Kidney Failure
- 388 Large prehistoric earthquake ripped Seattle
- 389 Fullerene-like molecules without carbon
- 390 Were spiral galaxies once more common?
- 390 Breast milk: Can it slime away disease?
- 391 Bringing water down to a new critical point
- 391 Depression rates rise over generations

Research Notes

- 398 Biomedicine
- 398 Physics

Articles

- 392 Talking Maps
Cover: With this tactile map of Washington, D.C., people who see poorly or not at all can feel their way to the monuments. But to help cartographers compensate for the limitations of tactile graphics, researchers are developing technologies to make these maps talk. (Photo by John Consoli, University of Maryland, College Park)
- 394 Anatomy of Alzheimer's

Departments

- 386 Books
- 387 Letters

Science Service, a nonprofit corporation founded in 1921, gratefully accepts tax-deductible contributions and bequests to assist its efforts to increase the public understanding of science, with special emphasis on young people. More recently, it has included in its mission increasing scientific literacy among members of underrepresented groups. Through its Youth Program it administers the International Science and Engineering Fair, the Science Talent Search for the Westinghouse Science Scholarships, and publishes and distributes the *Directory of Student Science Training Programs for Precollege Students*.

Board of Trustees — *Chairman*, Glenn T. Seaborg; *Vice Chairman*, Gerald F. Tape; *Secretary*, David A. Goslin; *Treasurer*, Willis Harlow Shapley; Joseph W. Berg Jr.; Robert W. Fri; J. David Hann; Dudley Herschbach; Shirley M. Malcom; Elena O. Nightingale; Ben Patrusky; H. Guyford Stever; Sanford J. Ungar; Deborah P. Wolfe. Honorary Trustees — Edward Bliss Jr.; Bowen C. Dees; O.W. Riegel; John Troan. President: Alfred Scott McLaren; Vice President and Business Manager: Donald R. Harless.

Ins and outs of the spacelab

I am mystified by the three-character sign shuttle astronaut Mark C. Lee is apparently pointing to on the cover of SCIENCE NEWS (10/17/92).

Stephan Waters
Lyons, Ore.

NASA says the symbols are an entrance-exit sign in Japanese.

if I had drunk any coffee on that day or on the previous morning I was ill. I told him I hadn't. He said he knew what was wrong and had just the thing to cure me. He gave me a cup of coffee, and within an hour I was right as rain.

The medic explained to me that some soldiers apparently became so dependent on coffee that they became ill if they didn't get their morning shot. He pointed out that since my unit could hardly have coffee every morning in the field, I should try to quit drinking it. The way to do this was to drink a little less each morning for about two weeks until I could do without it. I did what he said and it worked out just as he had predicted.

I thought everybody knew that by now!
