Brain Quest

1500 Questions and Answers to Challenge the Mind

These innovative question and answer cards resemble a traveling Trivial Pursuit game. Each card includes ten questions and answers on the topics of Science, English, Math, "Grab Bag," U.S. History, and Geography. *Brain Quest* can be played alone or in groups and is packaged in handy, compact plastic containers convenient for car trips and vacations.

These progressive sets are designed to match a child's age, skills, and learning ability, but are great for review or working ahead. Recommended for ages 9 through 13, grades 4 through 7.

Workman, 1992, 150 cards split into 2 decks, 2 1/4" x 7 1/4", encased in plastic boxes, \$9.95 each

With enough patience, you can perform any 2D measurement with this equipment.

Save yourself a lot of trouble.

Put your planimeter, ruler, and calculator away. Use SigmaScan™ instead.

With SigmaScan, it takes only seconds to measure angles, areas, lengths, perimeters, slopes, and points and analyze the data on your own IBM PC or compatible. Each measurement is organized in a worksheet the way you want it, with the units you specify. You can even transform data based on your equations, and store data in standard ASCII files for use in other programs. SigmaScan, it takes the trouble out of 2D measurement.

For free brochure, call 800-874-1888 (415-924-8640 in CA and Canada).
