- Large 8 1/2" x 11" format—over 1,500 pages
- More than 500 entries by eminent scientists
- Over 750 photos, graphs and diagrams
- Completely cross-referenced and indexed
- Edited by Rita G. Lerner and George L. Trigg

When first published, the *Encyclopedia of Physics* won international acclaim for its broad and authoritative coverage of state-of-the-art physics. *American Scientist* called it "...clearly the definitive encyclopedia of physics." *Physics Today* recommended it as "an open-ended invitation to a self-paced course in any and all of physics."

Now in its second edition, the *Encyclopedia* keeps pace with the very latest developments in all branches of physics—from radio astronomy, elementary particles, black holes, and unified field theory to semiconductors, biophysics, geophysics and physical chemistry.

More than 500 world-renowned scientists have prepared special entries for their respective fields, including such Nobel Prize winners as PHILIP W. ANDERSON (Quasi-particles), OWEN CHAMBERLAIN (Nucleon), SHELDON GLASHOW (SU<sup>3</sup> and Higher Symmetries), MELVIN SCHWARTZ (Leptons), BURTON RICHTER (Positron-Electron Colliding Beams), and KLAUS VON KLITZING (Quantum Hall Effect).

To reflect dramatic breakthroughs and discoveries, the second edition of the *Encyclopedia of Physics* features many all-new entries. Here is a selected listing:

- NEUTRINO ASTRONOMY
- CHAOS • SOLITONS
- COSMIC STRINGS
- FRACTALS

- GRAVITATIONAL LENSES
- HIGH FIELD ATOMIC STATES
- JAN-TELLER EFFECT
- QUARKONIUM

With its new additions and revisions, the *Encyclopedia of Physics* remains the reference of choice not only for physicists, engineers and scientists in related fields, but for anyone with an avid interest in science.

This outstanding volume, published at \$150.00, can be yours for just \$4.95. Don't delay. Fill in the coupon and send for your copy today.

**MEMBERSHIP BENEFITS** In addition to getting the *Encyclopedia of Physics* for only \$4.95 when you join, you'll also receive discounts on books you choose to purchase. Discounts generally range from 15% to 30% off the publishers' prices, and occasionally even more. • Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings of 50% off the publishers' prices. • Moreover, our books are always identical to the publisher's editions. You'll never receive an "economy edition" with inferior paper and bindings from us. • At 3-4 week intervals (15 times per year), you will receive the Library of Science News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • In addition, up to three times a year, you may receive offers of Special Selections which will be made available to a group of select members. • If you want the Main Selection, do nothing, and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.

Please accept my application for trial membership and send me the *Encyclopedia of Physics* (44580) billing me only \$4.95, plus shipping and handling. I agree to purchase at least three additional Selections or Alternates over the next 12 months. Savings generally range from 15% to 30% off the publishers' prices. My membership is cancelable any time after I buy these three additional books. A shipping and handling charge is added to all shipments.

**No-Risk Guarantee:** If I am not satisfied—for any reason—I may return the *Encyclopedia of Physics* within 10 days. My membership will be canceled, and I will owe nothing.
