enjoy their gardens after the daylight hours, The Evening Garden is a celebration of the hundreds of plants that bloom and/or release their fragrance after the sun goes down, Orchids, cacti, annuals, perennials, vines, water lilies, wildflowers, and trees are all included. The entry for each night bloomer contains a detailed de-202-331-9653 scription and tips on cultivation, along with its range of hardiness. There's even a list of 99 varieties of daylily that open or stay open late into the evening hours, contrary to the name.

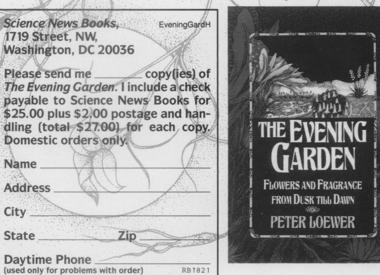

In addition to a chapter on creating the classic "moonlight" garden, complete with an extensive sample plan and a list of more than

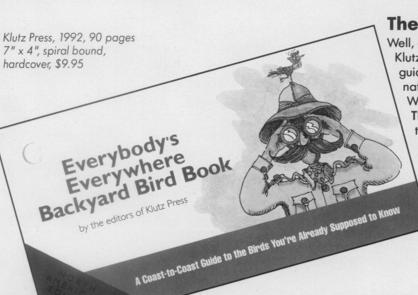

For the many people who work and only have time to care for and

75 white-blooming annuals, perennials, bulbs, shrubs, and trees, there are chapters on the night sky and on the creatures that light it and fill it with movement and song fireflies, glowworms, moths, bats, owls, tree frogs among them.

Packed with more than a hundred beautiful line drawings, The Evening Garden is an evocative and highly informative book that will help you create a garden of wonder and delight that you can enjoy from sundown into the evening darkness.

from Macmillan

They're Everywhere!

Well, almost everywhere. Klutz Press has prepared a unique beginner's guide to 26 very special birds, winners of our nationwide "Most Likely to Be Seen No Matter Where You Live" contest. We've named them The All-Continent All-Stars and even though they're so common one of them is probably flying directly over your head right now, we've profiled each of them with a collection of interesting tidbits and general birdwatching hints that should enable you to (finally!) identify each and every one of them. -from Klutz Press

> Packaged with the guide is the Audubon Birdcall, the most popular birdcall ever manufactured. Recommended for ages 8 and up.
