There is a theory that at the root of all living and non-living systems — from the behavior of molecules to the formation of the universe— there lies a fundamental set of rules that will unify the sciences. It's called complexity. Now the 3-volume CHAOS & COMPLEXITY SET brings you straight to the heart of this ground-breaking theory.

**EXPLORING COMPLEXITY**  
Gregoire Nicolis & Ilya Prigogine

Illustrated throughout, this comprehensive volume gives you powerful analytical methods for understanding complexity. You'll see how complexity theory explains such phenomena as:

- Chemical reactions and thermal convection
- Cellular growth, life cycles and bio-social structures
- Planetary orbits and the formation of the universe

313 pages. Publisher's Price: \$24.95

**COMPLEXITY. Life at the Edge of Chaos**  
Roger Lewin

"Important and beautifully done."  
— Stephen Jay Gould

Meet the cutting-edge complexity experts and discover their controversial theories: Stuart Kauffman ... Brian Goodwin ... Jim Lovelock ... Murray Gell-Mann ... Chris Langton — all presenting their views on the formation and application of complexity theory.

320 pages.  
Publisher's Price: \$22.00

Emergence in complex systems

Wave propagation in a two-dimensional layer of BZ reagent

**THE ORIGINS OF ORDER**  
Stuart A. Kauffman

"Read this Book."  
— Phillip Anderson

Does the tendency toward self-order dominate the evolutionary process? Kauffman applies complexity theory to evolution — the first new theory on the subject since Darwin — and shares some startling new ideas on:

- Darwinian evolution vs. spontaneous order
- The marriage of self-order and selection
- The beginning of life

THE LIBRARY OF SCIENCE is the nation's oldest and most respected science book club. Dedicated to serving both professionals and serious amateurs, it surveys the entire field of published sources on scientific subjects to make the very finest works available to club members at substantial savings, with prices starting as low as \$9.95.

**MEMBERSHIP BENEFITS** In addition to getting the CHAOS & COMPLEXITY SET for only \$4.95 when you join, you'll also receive discounts on books you choose to purchase. Discounts generally range from 15% to 30% off the publishers' prices, and occasionally even more. • Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings of 50% off the publishers' prices. • Moreover, our books are always identical to the publisher's editions. You'll never receive an "economy edition" with inferior paper and bindings from us. • At 3-4 week intervals (15 times per year), you will receive the Library of Science News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • In addition, up to three times a year, you may receive offers of Special Selections which will be made available to a group of select members. • If you want the Main Selection, do nothing, and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.
