

Addison-Wesley

“History will regard SFI as one of the most important scientific developments in the late 20th century.”

-Dr. Dobb's Journal, March, 1993

SANTA FE INSTITUTE STUDIES IN THE SCIENCE OF COMPLEXITY SERIES

ADDISON-WESLEY is proud to publish the Institute's proceedings, monographs, lectures, and lecture notes volumes. The books published in this series reflect the growing belief that the rules of complexity are comprehensible, and that a deeper understanding of these rules could lead to significant consequences for our planet.

0-201-55740-1
Wuensche/The Global
Dynamics of Cellular
Automata
\$53.75

0-201-57834-4
Nadel/1991 Lectures in
Complex Systems
\$49.50

0-201-58789-0
Mittenthal/Principles of
Organization in Organisms
\$35.50

0-201-58788-2
Casdagli/Nonlinear Modeling
and Forecasting
\$34.50

0-201-15685-7
Anderson/Economy as an
Evolving Complex System
\$27.95

0-201-51561-X
Bell/Computers and DNA
\$30.25

0-201-13232-X
Doolen/Lattice Gas Methods
for Partial Different Equations
\$32.25

0-201-52573-9
Hawkins/Evolution of Human
Languages
\$24.75

0-201-51560-1
Hertz/Introduction to the
Theory of Neural Computation
\$32.25

0-201-09356-1
Langton/Artificial Life
\$34.50

0-201-52571-2
Langton/Artificial Life II
\$34.50

0-201-55492-5
Langton/Artificial Life II -VHS
Video Tape
\$45.25

0-201-55493-3
Langton/Artificial Life II -
Video/Paperback
\$64.50

0-201-52575-5
Nadel/1990 Lectures in
Complex Systems
\$50.50

0-201-50936-9
Jen/1989 Lectures in Complex
Systems
\$49.50

0-201-51015-4
Stein/Lectures in the Sciences
of Complexity
\$50.50

0-201-15683-0
Perelson/Theoretical
Immunology - Part I
\$32.25

0-201-15688-1
Perelson/Theoretical
Immunology - Part II
\$32.25

0-201-52150-4
Perelson/Molecular Evolution
on Rugged Landscapes
\$26.95

0-201-15686-5
Pines/Emerging Synthesis in
Science
\$27.95

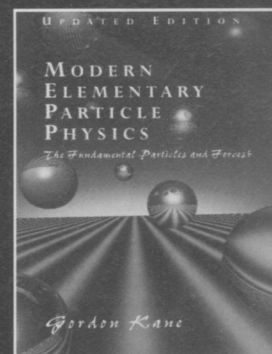

0-201-62454-0
Stein/Thinking About Biology
\$22.75

0-201-52887-8
Weisbuch/Complex Systems
Dynamics
\$43.25

0-201-51506-7
Zurek/Complexity, Entropy,
and the Physics of Information
\$31.25

0-201-62459-1
Rust/The Double Auction
Market
\$24.75

Also available from
ADDISON-WESLEY

“Professor Kane is an excellent expositor and has a thorough knowledge of all aspects of particle physics. His book, *Modern Elementary Particle Physics*, is of great value for physicists or chemists with no previous training in that field. It is easy and instructive reading.”

—Victor F. Weisskopf
Massachusetts Institute
of Technology

Paperback, 351 pages
0-201-62460-5 \$24.75

All of these titles are available at fine technical bookstores.
