

# Erector Sets

Erector sets, the first American metal construction sets, are one of the most popular toy lines ever invented! Your children are sure to have as much fun with these brand new sets as you had with yours and your parents had with theirs!

- ★ All sets are compatible with previous years' sets.
- ★ Projects help develop manual dexterity and concentration.
- ★ A great educational gift!

**Junior Erector Set** features large parts for little fingers. Brightly colored plastic parts are completely compatible with the more advanced metal sets so this set can grow with your child.

- ★ Recommended for age 4 and up.
- ★ Junior Erector set contains 62 parts with instructions for 24 different models including an airplane, windmill, and tractors, \$24.95.

Junior Set

**Erector Vehicles** let you discover how vehicles are constructed. Motorcycle kit even includes shock absorbers along with the necessary parts and instructions for building three different models. Race car kit includes wide tires and motor to test construction skills.
