Vol. 146, No. 20
Pages 305-320

Winning with Wounded Knees

Broaden your horizons with Cambridge science books

Out of Sight!

From Quarks to Living Cells

Sven Kullander and Borje Larsson

An armchair explorer's guidebook for excursions into elusive and invisible worlds, such as cells, molecules, atoms, and subatomic particles, that cannot be experienced directly with our senses.

1994 292 pp.
35044-1 Hardback \$29.95

Remarkable Discoveries!

Frank Ashall

An enthusiastic and engaging narrative that explores eighteen exciting discoveries, found in all areas of science, that have had a profound impact on modern life.

1994 278 pp.
43317-7 Hardback \$24.95

Prometheus Bound

Science in a Dynamic Steady State

J.M. Ziman

"... a masterly contribution to our thinking on these issues... With wit, grace, and light touches of erudition, Ziman clarifies the challenges of managing the enterprise of discovery."

— Rodney W. Nichols, Science

1994 300 pp.
43430-0 Hardback \$24.95

Physics and Our View of the World

Jan Hilgevoord, Editor

A thought-provoking examination of the claims of modern physics and their impact on our view of religion and the world.

1994 270 pp.
45372-0 Hardback \$49.95
47680-1 Paperback \$22.95

The Cambridge Atlas of Astronomy

Third Edition

Jean Audouze, Guy Israël, and Jean-Claude Falque, Editors

"...an absolutely lavish collection of new drawings, charts, explanatory diagrams, illustrated tables and photographs." — Nature

The new edition includes dramatic photographs of the latest planetary and space missions — the Magellan mission to Venus, the Voyager 2 encounter with Neptune, the Phobos data from Mars, and results from the Hubble Space Telescope.

1994 472 pp.
43438-6 Hardback \$75.00

New Views on an Old Planet

A History of Global Change

Second Edition

Tjeerd H. van Andel

From reviews of the First Edition...

"...quite simply, one of the best general books on the evolution of the Earth to appear this decade.... a genuine attempt to reach out to the layperson."

— Peter J. Smith, Geology Today

1994 454 pp.
44243-5 Hardback \$59.95
44755-0 Paperback \$24.95

The Outer Reaches of Life

J.R. Postgate

"Postgate's accounts of the weird and wonderful ways of microbes are stories both of sophisticated science and of the extremes in the biological world...provides an enjoyable introduction to the broader field of microbiology."

— William C. Summers, The New England Journal of Medicine

"...solid popular science writing in a neglected field of microbiology."

— Robert Desowitz, Nature

1994 285 pp.
44010-6 Hardback \$22.95

An Inventor in the Garden of Eden

Eric Laithwaite

A fascinating insight into the genius nature's creations. The author questions conventional science in such fundamental topics as logic, habit, memory, experience, absolute size, wisdom and civilization.

1994 302 pp.
44106-4 Hardback \$24.95

The Farthest Things in the Universe

Jay M. Pasachoff, Hyron Spinrad, Patrick Osmer, and Edward S. Cheng

Four experts offers general readers an exceptional chance to share in the excitement of today's forefront research of the early Universe.

1994 114 pp.
45170-1 Hardback \$29.95
46931-7 Paperback \$19.95

Spaceship Neutrino

Christine Sutton

"...a brief, richly illustrated, informed and up to date overview of the entire physics of neutrinos. Her style is easy, the language lively and familiar....Beginners and physics-wise readers can profit alike....her timely choice of topic in all its breadth is hard to match."

—Scientific American

1992 258 pp.
36404-3 Hardback \$44.95
36703-4 Paperback \$27.95

Now in paperback...

Glaciers

Michael Hambrey and Jürg Alean

"This excellent, popular volume by professional glaciologists, with beautiful illustrations and instructive captions, discusses all aspects of glaciology, from small valley glaciers to continental ice sheets. This beautiful volume is recommended highly..."

— Edmund Bray, Science Books and Films

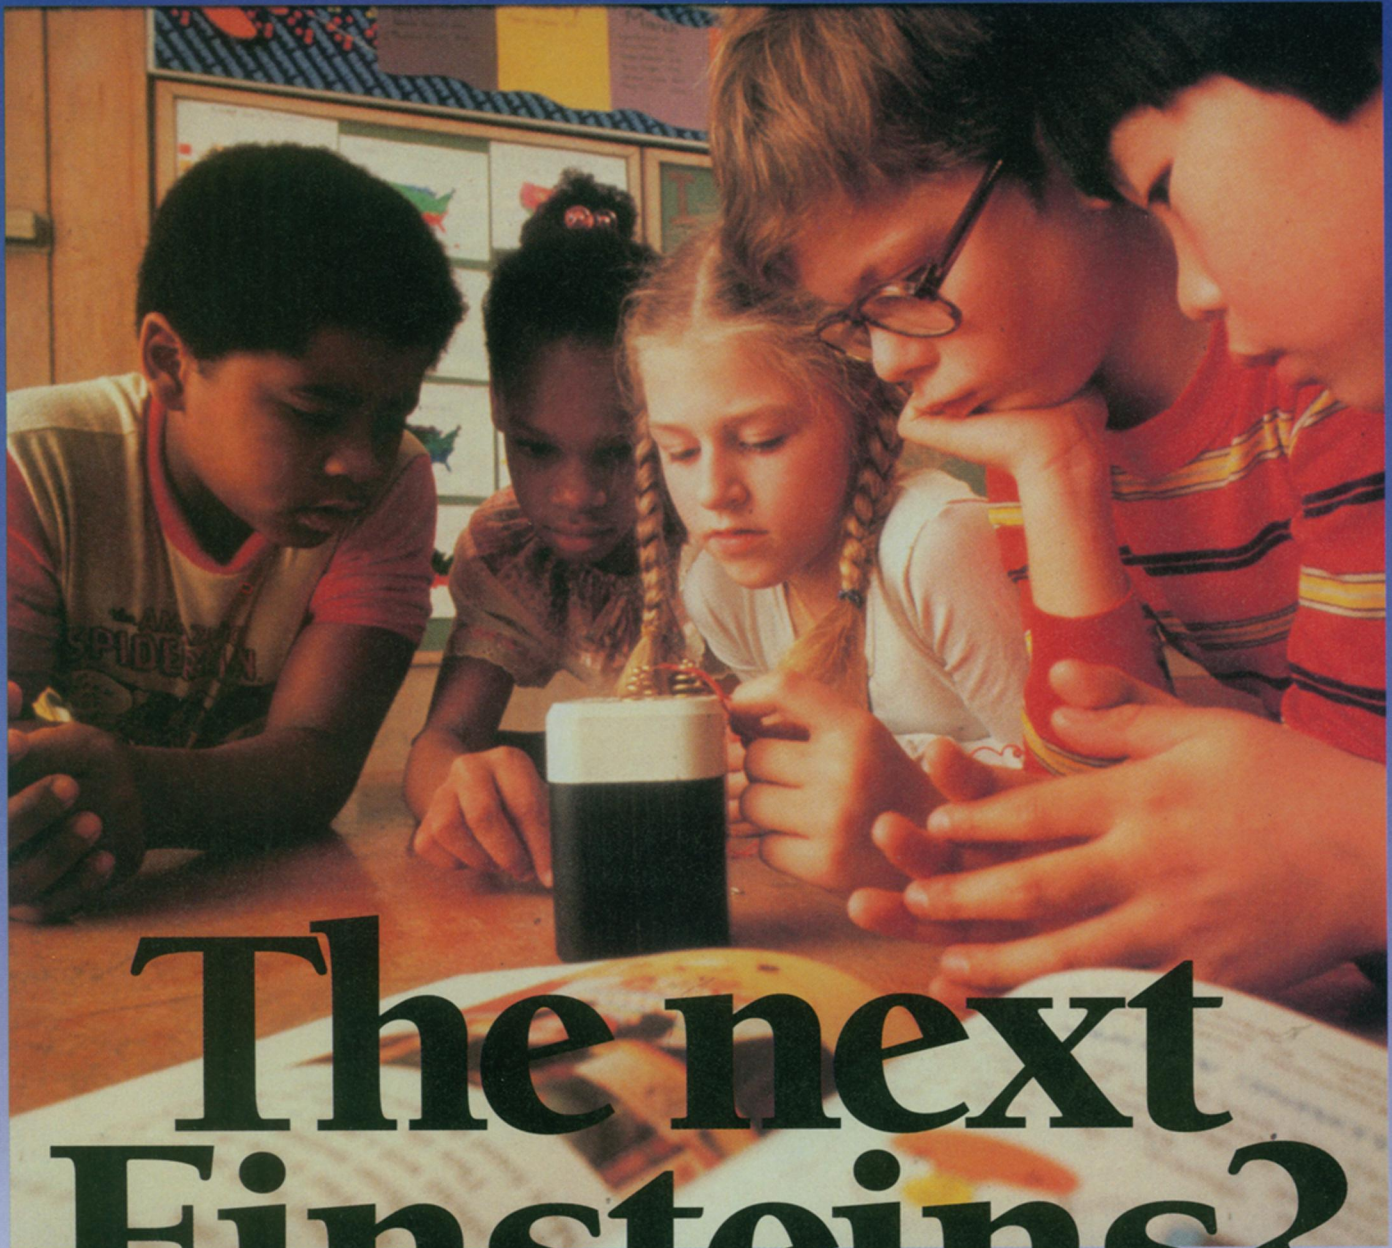

1992 208 pp.
46787-X Paperback \$15.95

The Cambridge Encyclopedia of Human Evolution

Steve Jones, Robert Martin, and David Pilbeam, Editors

"...a remarkably readable, well-organized and extremely comprehensive account of our current understanding of human evolutionary biology. It is fascinating reading for anyone interested in exploring the mysteries of our origin and evolution." — Alan Sololoff, American Scientist

1993 512 pp.
46786-1 Paperback \$34.95

The next Einsteins?

In classrooms around the world, tomorrow's Einsteins are waiting... waiting for the opportunity to learn, grow, and contribute to the future of science.

Science Service Inc. provides them this opportunity.

For over 73 years, we have championed the cause of science education among the young (and not so young) through publications like this, our directory of internships, and

science competitions, including the world-renowned International Science and Engineering Fair (ISEF).

For science education, as in the world of science itself, there are no boundaries to what we can achieve.

Plans are in place to enhance scholarships, create specially targeted childrens' publications, expand outreach programs, and more. Which is why we turn to you today.

Please give. Give personally. Give through your corporation. Give through your organization. Give generously.

Remember, your signature on a check today will help find the Einsteins of tomorrow.

CALL TO SUPPORT THE NEXT GENERATION OF SCIENTISTS.

Give the gift of **SCIENCE NEWS** this holiday season...

This holiday, share **SCIENCE NEWS** with your friends. They will appreciate the opportunity to learn about new scientific discoveries that can affect their lives, their jobs, their futures. And in this era of rapid development, they will especially appreciate the timely perspective **SCIENCE NEWS** gives to urgent issues involving science and society.

Why? Because **SCIENCE NEWS** is designed for people on the go. It reports key developments clearly, accurately, concisely — in about an hour's reading time per week. For someone with little spare time, **SCIENCE NEWS** provides a reliable summary of important news.

SCIENCE NEWS makes the ideal gift for busy executives, professionals, science teachers, students, and scientists in search of an overview of all major fields of science.

SPECIAL HOLIDAY SAVINGS!

Your first gift subscription of **SCIENCE NEWS** is \$44.50. Each additional 1-year subscription is only \$39.00. And you may include your own renewal or new subscription at this money-saving rate.

SEND YOUR GIFT ORDERS NOW!

Use the convenient postage-paid reply card opposite this message. Or, if someone else has already used it, fill in the order form below and mail it today.
