as your introduction to the
LIBRARY OF SCIENCE

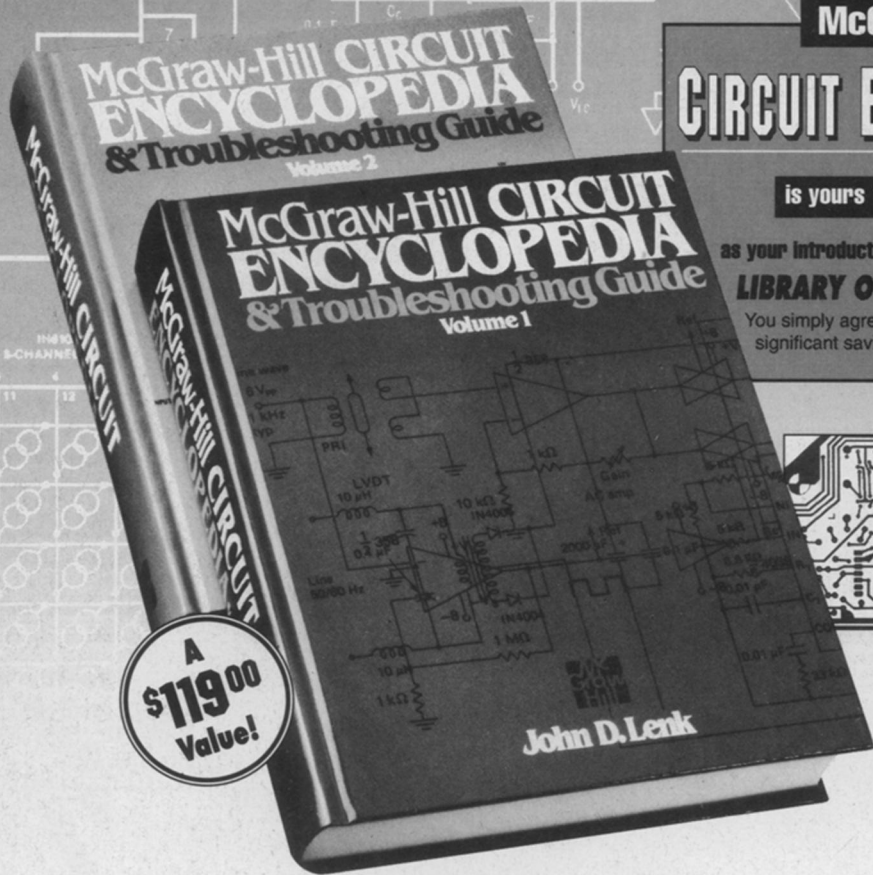

You simply agree to buy 3 more books—at significant savings—over the next 12 months.

- Large 2-volume format
- More than 1,250 pages
- Plus 1,500 illustrations!

The complete circuit source for—

- Ultrasonic
- Direct-Current
- IF & RF Circuits
- Video Circuits
- Audio-Frequency Circuits
- Power Supply/Linear-Regulator Circuits
- Oscillator Circuits
- Generator Circuits
- Digital Circuits
- Switching Circuits
- Battery-Powered & Micro-Powered Circuits
- Power-Processing Circuits
- Electronic-Control Circuits
- Unijunction & Programmable Unijunction Circuits
- OP-AMP Circuits
- OTA & Norton Circuits
- Voltage/Frequency & Frequency/Voltage Circuits
- Temperature Indicator/Controller Circuits
- Transducer/Signal-Conditioner Circuits
- Comparator Circuits
- and much more!

Science News 4/95 2-EL3

This massive 2-volume set is the first place to look for vital information on state-of-the-art electronic circuits from audio and video circuits to digital and filter types. Each of 1,400 circuit entries features—

- Complete circuit design with proven component values and diagram
- Specifics on how it operates and where it can be fitted into different types of equipment and systems
- Step-by-step guidelines for testing and troubleshooting all circuit components

You can put these circuits to work "as is" or change circuit values to fit your needs. Substantial cross-reference tables make finding possible substitute ICs easy. Circuit manufacturer addresses, along with tips on pin connections and abbreviations are given throughout.

If you work with circuits, you can't afford to be without this time- and money-saving circuit handbook set. This \$119.00 value is yours for only \$4.95, so complete and send the coupon today.

THE LIBRARY OF SCIENCE is the nation's oldest and most respected science book club. Dedicated to serving both professionals and serious amateurs for almost 40 years, it surveys the entire scientific field to make the finest works available to club members. Books span an exciting variety of subjects from theoretical and applied mathematics to earth sciences, biology, physics, and computer technology. All books are available to you at significant savings, with prices starting as low as \$9.95.

MEMBERSHIP BENEFITS

In addition to getting the 2-Volume McGraw-Hill CIRCUIT ENCYCLOPEDIA for only \$4.95 when you join, you keep saving substantially with discounts of up to 50% off the publishers' prices on books you choose to purchase. • Also, you will immediately become eligible to participate in our Bonus Book Plan. • Moreover, our books are always identical to the publishers' editions. You'll never receive an "economy edition" with inferior paper and bindings from us. • At 3-4 week intervals (16 times per year), you will receive the Library of Science News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • In addition, up to four times a year, you may receive offers of Special Selections which will be made available to a group of select members. • If you want the Main Selection, do nothing, and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.
