Atlas of the North American Indian
Carl Waldman

In the year 1000 A.D., a time when much of the world stilled toiled in the twilight of the Dark Ages, a North American people, the Toltecs, were wrapped in a joyous embrace with nature. They were developing improved strains of maize, squash, and corn. Crafting fine objects in gold and silver. And erecting elaborate colonnaded halls. These are just some of the many remarkable facts you'll find in this fascinating reference. Over 100 handsomely illustrated historical, military, cultural, and period maps show you tribal locations, migrations, land cessions, and key battles. A comprehensive appendix provides an at-a-glance chronology of Indian history. *Publisher's Price: \$30.00*
