Value

Metaphase Chromosome Model

- 3 Volumes
- Over 1600 Pages
- More than 1000 photos & illustrations
- Yours for only \$5.95!

### Unraveling DNA

*Maxim D. Frank-Kamenetskii*

"This brilliant book differs from all other accounts of the new biology that I know. It intertwines the history of discovery related to DNA with a clear account of the logic of those discoveries and of the problems yet to be solved. Yet anybody can understand it: it reads like a detective story."

- John Maddox, Editor, *Nature*.

320 pages. Publisher's price: \$24.95

### Principles of Cell and Molecular Biology

2nd Edition

*Lewis J. Kleinsmith and Valerie M. Kish*

Complete and readable, this lively text integrates classical cell biology and modern molecular biology. Covers experimental techniques, the organization of the cell, membranes and membrane transport, transcription and translation of genetic information, cell motility, the evolution of the cell, and specialized cells such as gametes, neurons and lymphocytes. Over 800 micrographs, diagrams and graphs. 866 pages. Publisher's price: \$70.00

### Principles of Gene Manipulation

5th Edition

*An Introduction to Genetic Engineering R.W. Old and S.B. Primrose*

Now in its fifth edition, this classic text has been extensively revised to reflect the remarkable advances in the last five years. Features a new chapter on the impact of recombinant DNA technology plus extended coverage of gene transfer techniques. Gives detailed descriptions of the main methods of gene manipulation: blotting techniques, cutting and joining, cloning methods, the use of vectors, and more. Over 180 illustrations. 474 pages. Publisher's price: \$42.95

#### THE LIBRARY OF SCIENCE

A Newbridge Book Club

PO BOX 6014, Delran, NJ 08075-9649

Please accept my application for trial membership and send me the MOLECULAR BIOLOGY SET (00585) billing me only \$5.95, plus shipping and handling. I agree to purchase at least three additional selections at regular member's prices over the next 12 months. As a member, I can save up to 50% off the publishers' prices. My membership is cancelable any time after I buy these three additional books. A shipping and handling charge is added to all shipments.

**No-Risk Guarantee:** If I am not satisfied—for any reason—I may return the MOLECULAR BIOLOGY SET within 10 days. My membership will be canceled, and I will owe nothing.

Science News 6/96

2-EV3

**THE LIBRARY OF SCIENCE** is the nation's oldest and most respected science book club. Dedicated to serving both professionals and serious amateurs, it surveys the entire field of published sources on scientific subjects to make the finest works available to club members at substantial savings, with prices starting as low as \$9.95.

**MEMBERSHIP BENEFITS** In addition to getting the MOLECULAR BIOLOGY SET for only \$5.95 when you join, you keep saving substantially with discounts of up to 50% off the publishers' prices on books you choose to purchase. • Also, you can participate in our Bonus Book Plan after purchasing just one regular selection at the discounted member's price. • Moreover, our books are always identical to the publishers' editions. You'll never receive an "economy edition" with inferior paper and bindings from us. • At 3-4 week intervals (15 times per year), you will receive the Library of Science News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • In addition, up to three times a year, you may receive offers of Special Selections which will be made available to a group of select members. • If you want the Main Selection, do nothing, and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.
