MANCALA

This African stone game was played by the pharaohs nearly 3,000 years ago. Now you can carry on the tradition with this beautifully crafted set featuring a solid-pine board and colorful glass stones. The object of this easy-to-learn game is to accumulate as many stones as possible before the other player clears his or her side. This is accomplished by strategically moving the pieces from bin to bin.

Includes 48 glass stones in a cloth storage bag. ~~\$13.95~~ **Mancala**

MOUNTAINS

is a comprehensive look at the grandeur of mountains and a call by 16 world-renowned experts to preserve them. Learn how mountains, from the snow-covered Alps to those in the tropics, are formed as a result of volcanoes or shifting continental plates; how unique flora and fauna (including exotic plants and a magnificent array of animal species including people) have adapted to mountain habitats; and what impact humans have had on mountains.

GALILEA LUNAR CLOCK

Follow the phases of the moon from full to new with this stunning desk clock. This remarkable effect is achieved through the perpetual movement of a matte dark half that revolves around a detailed serigraphy of the moon. A standard quartz-movement clock with hour, minute, and second hands and a calendar that shows the day and month enhance Galilei's use as a functional, moving sculpture.

Constructed of matte black polyamide.

4 1/2" x 4 1/2" x 9 1/2". One AA battery is required and included. ~~\$64.95~~ **LunarClock**
