Harnessing Hibernation

Our reputation stands behind it.

The Bose® Wave® radio is no ordinary radio. Behind it stands a 30-year reputation for building superior music systems and speakers that produce full, rich sound. But how do you get Bose quality sound from a small radio?

Technology that redefines radio.

The solution is our patented acoustic waveguide speaker technology. This technology is so advanced, it earned its creators the prestigious "Inventor of the Year" award. Much as a flute strengthens a breath of air to fill an entire concert hall, the waveguide produces room-filling sound from a small enclosure.

Even the critics were impressed. *Popular Science* called the Wave radio "a sonic marvel." *Radio World* called it "...a genuine breakthrough in improved sound quality." Turn it on and listen for yourself — you'll understand why many owners actually use their Wave radio as their primary music system. Yet the Wave

radio measures just 4.5"H × 14"W × 8"D, small enough to fit on a kitchen counter, bedroom nightstand, almost anywhere.

Remote-controlled convenience.

The easy-to-use Wave radio comes with a credit card-sized remote control that lets you operate the radio from across a room. You can preset six AM and six FM stations and switch between them at the touch of a button. Or listen to your favorite recordings by connecting the radio to your CD or cassette player, TV, or VCR. There's even a dual alarm feature.

Call now and make six interest-free payments.

The Wave radio is available for \$349 directly from Bose, the most respected name in sound. So call 1-800-681-BOSE, ext. R6557, to learn more about our in-home trial and satisfaction

guarantee. When you call, ask about our six-month installment payment plan. Or, if you prefer, return the coupon below.

So put a Wave radio in front of you. And hear all that stands behind it.

Affordable Robot Kit Teaches The Basic Principles Of Robotic Sensing And Locomotion.

SALE!

- Built-in Electronic Control Sound Sensor.
- Easy-To-Follow Step-By-Step Instructions.
- A Spunky Little Robot For Ages 10 And Up.

Hyper Peppy is an intelligent robot that responds to sound and obstacles in its path. When the sound/touch sensor (in front) detects an obstacle or hears a loud noise, such as a hand clap, Hyper Peppy will automatically reverse, then turns left before embarking on a new course. Kit incorporates the basic principles of robotic sensing and locomotion, and guarantees an adventure that's exciting, challenging, educational and fun. Comes complete with pre-assembled PC board, condenser microphone and easy to assemble mechanical drive system. Powered by 2 1.5V "AA" batteries. (not included). **SAVE \$5!** Reg. \$29.95 **PM52,864 \$24.99**

Digital Thermometer Shows BOTH Indoor AND Outdoor Temperature, Mini-Max Memory For The Day's High AND Low!

SALE!

Now, you'll know at a glance how cold it is, with large, easy-to-read LED readout numbers, both the outside and inside temperature. Thermometer also records high and low readings. F° or C° selectable -40°F to +122°F. Modern Hi-Tech case measures 7 x 3 1/2 x 1/4". Easy to mount. Uses 2 "AA" batteries (not incl.). Complete with 10 ft. outdoor probe sensor cord. **SAVE \$14** Reg. \$46. **PM38,038 \$32.00**

Electric Diving Submarine Toy.

Our battery operated electric motor plastic toy submarine dives and resurfaces to the delight of young U-Boat commanders. 13" long and approx. 2" in dia. with diving depth adjustment or surface cruise mode. Batt. not included. **PM53,472 \$11.95**

Authentic Russian KGB Micro Binoculars.

Originally designed as KGB restricted issue micro binoculars by the Lytcorino Optical Factory (the former Soviet Union's most secretive military optics factory). These 2.5 power micro binoculars feature 17.5mm coated objective lens and individual focusing eyepieces. Lightweight, compact folding design weighs only 2 1/2 oz. **SAVE \$5!** Reg. \$24.95 **PM53,014 \$19.95**

ES Mighty Magnet Lifts Over 200 Pounds.

Go fishing with our Mighty Magnet. Fun to use around docks and bridges. A "must" for a boat, it helps retrieve metal objects that fall overboard. You'll be amazed at what you pull up. Made with a bright orange PVC coating to resist corrosion and chipping. Many industrial and maintenance uses. Weighs 2 lbs., measures 4" x 3 1/4" x 3 1/4". **PM71,135 \$34.95; 2 or More \$28.50 Each**

Salt Water Energy Lantern Requires No Batteries... Runs On Salt Water Or Ocean Water! Ideal for Boating, Camping And Household Emergencies.

This high intensity fluorescent lantern is activated by placing a tablespoon of salt dissolved in water into the lanterns battery case along with 2 anode power plates. The energy created is converted to a low level voltage that illuminates the bulb. Constructed of lightweight, high-impact plastic provides years of energy saving use. Comes with 2 sets of aluminum anode power plates and 2 salt packets. **PM81,127 \$49.95**

Locate Your Position Anywhere In The World With The MAGELLAN™ GPS Hand-Held Satellite Navigation System.

SALE!

The Global Positioning System known as GPS, is a highly accurate, worldwide navigation and positioning system that can be used 24 hours a day. Designed at the impetus of the US Dept. of Defense and primarily for military use, GPS is now available to a variety of users worldwide. The **Magellan GPS receiver can locate and memorize your position anywhere on land or sea.** Acting as a lightweight hand-held guide, GPS can read your position, return you to a position fix, mark waypoints and set course to new locations. Push the "Go To" button and instantly select any of 200 landmark-destinations. On screen instructions make operations a snap. Four easy-to-understand navigation screens: **POSITION** (displays current position in Lat./Long.) **POINTER** (displays compass course, direction, distance, ETA). Memory for 5 routes with 20 reversible legs. Operates for 24 hours continuous with 4 alkaline AA batteries. Rugged and durable, rubber around grips, waterproof and scratch proof display. Lanyard strap included. Tracks 12 satellites. Auto-Backtrack feature. Size: 6 1/4" x 2 3/8" x 2 1/4". Weight: 10 oz. **GPS Magellan 2000XL. Mfg. List \$279.99 **PM53,718 \$199.95****

US Navy Specification Military 7x50 Binoculars.

Waterproof nitrogen-filled Fujinon binoculars are made in the USA. These are the same binoculars supplied to the US Navy for demanding sea duty. Brand new 7x50 binoculars meet or exceed military requirements for strength, performance and quality. For maximum light transmission and image brightness, all optical surfaces are coated with magnesium fluoride. The lenses and Bak-4 prisms are sealed with light alloy housings from which all air, moisture and contaminants have been purged by dry nitrogen. The eyepieces are O-ring sealed, 100% waterproof and impervious to temperature extremes from -20°C to +70°C. The 7x50 BIF series is designed for use anywhere on earth. For a comfortable grip and added protection against impact, the binocular housing is covered with a durable rubber coating. The eyepieces provide a focusing adjustment of 8 diopters with 1-diopter calibration. Neck strap & lens cover incl. Field of View: 380 ft. Wt: 2.9 lbs. **PM53,459 \$229.00**

Add Spectacular Color To Your Home With A Rainbow Light Display.

Our equilateral prism is mounted in an attractive high tech black positioning base (3" x 1 1/2" x 1 1/4"), catches the sunlight from your window(s) and projects the ever-changing rainbow patterns over your walls, ceiling and floor. Glass equilateral prism is 2" (50mm) long with 1" (25mm) faces. **PM38,400 \$8.95**
