

WORLDWIDE MATHEMATICA CONFERENCE

CHICAGO 1998

1998 is the tenth anniversary of *Mathematica*, and to celebrate we're planning the technical computing event of the decade.

Join us at the Hotel Inter-Continental, right on Michigan Avenue, for the Worldwide *Mathematica* Conference. You'll see distinguished keynote speakers, presentations, tutorials, panels, and more. *Mathematica* users from around the world will come together to discover and explore the latest in *Mathematica* technology and applications.

Sessions and tutorials for every level of *Mathematica* user will provide tips and techniques you can apply immediately to your own projects. We'll also share innovative ideas for interactive publishing and for uniting *Mathematica* with emerging web technology.

This conference will be an invaluable source of solid, authoritative *Mathematica* information from those who know it best, as well as a chance to meet and interact with other members of the international *Mathematica* community.

And be sure not to miss our exclusive reception at the Museum of Science and Industry!

Join Us

June 18-21, 1998
Chicago, Illinois
