All Fall Down

Our reputation stands behind it.

The Bose® Wave® radio is no ordinary radio. Behind it stands a 30-year reputation for building superior music systems and speakers that produce full, rich sound. But how do you get Bose quality sound from a small radio?

Technology that redefines radio.

The solution is our patented acoustic waveguide speaker technology. This technology is so advanced, it earned its creators the prestigious "Inventor of the Year" award. Much as a flute strengthens a breath of air to fill an entire concert hall, the waveguide produces room-filling sound from a small enclosure.

Even the critics were impressed. *Popular Science* called the Wave radio "a sonic marvel." *Radio World* called it "...a genuine breakthrough in improved sound quality." Turn it on and listen for yourself—you'll understand why many owners actually use their Wave radio as their primary music

system. Yet the Wave radio measures just 4½"H × 14"W × 8¼"D, small enough to fit on a kitchen counter, bedroom nightstand, almost anywhere.

Remote-controlled convenience.

The easy-to-use Wave radio comes with a credit card-sized remote control that lets you operate the radio from across a room. You can preset six AM and six FM stations and switch between them at the touch of a button. Or listen to your favorite recordings by connecting the radio to your CD or cassette player, TV, or VCR. There's even a dual alarm feature.

Call now and make six interest-free payments.

The Wave radio is available for \$349 directly from Bose, the most respected name in sound. So call 1-800-681-BOSE, ext. R8939, to learn more about our in-home trial and 100% satisfaction guarantee. When you

call, be sure to ask about our six-month installment payment plan.

So put a Wave radio in front of you. And hear all that stands behind it.
