**Nuts to
Your Health**

If you think it looks different, wait until you hear it.

The Bose® Acoustic Wave® music system. A sound difference.

Touch a single button on this acclaimed, all-in-one music system—a system no bigger than a briefcase. You'll hear “big, bold sound” that places it “at the forefront of compact music systems,” according to the *Chicago Tribune*.

In fact, the sound is so rich and lifelike that people even compare it to much larger, more expensive component systems. No matter what kind of music you enjoy, the Acoustic Wave® music system brings it alive the way it was *meant* to be heard.

All of which is quite remarkable when you consider this simple, one-piece stereo system measures just 10.5”H x 18”W x 6.5”D. It fits just about anywhere, whether at home or in the office.

Different inside, too.

The key to this sound is our patented acoustic waveguide speaker technology

inside. No other stereo of any size has it. Just as a flute strengthens a breath of air to fill an entire concert hall, the waveguide produces room-filling sound from a small enclosure. It's a revolutionary concept that won its team of Bose engineers the prestigious “Inventor of the Year” award in the USA.

Folded inside, our patented seven-foot acoustic waveguide enriches sound.

Easy-to-use features.

The system is technologically advanced, yet remarkably easy to use. The CD player, AM/FM radio, and three speakers are all built in, so you'll have no wires or external speakers to hook up. Simply plug it in and press “Play.” There's even a handy credit card-sized remote.

Satisfaction guaranteed.

The Acoustic Wave® music system is available directly from Bose, the most respected name in sound. Call today, 1-800-897-BOSE, ext. G3827, to learn

more about the system and to find out about our 30-day in-home trial and satisfaction guarantee. Order by December 31, 1998, and receive free shipping, a \$29 value. And hear just how different a stereo this small can sound.

For FREE shipping,
order by
December 31, 1998.
