

# Explore two-and-a-half millennia of genius...on tape!

SAVE UP TO \$100 PLUS FREE SHIPPING!

With an engaging, thought-provoking course, **The Great Ideas of Philosophy**, taught by Professor Daniel Robinson, Ph.D., of Georgetown University. On sale, for a limited time only, from The Teaching Company.

It comes from the Greek words meaning "love of wisdom."

In English, we call it philosophy—the study of the most basic questions we humans have ever pondered. Questions like, What is reality? What are the limits of knowledge? What is (or is not) moral?

No doubt you've asked yourself questions like these. And perhaps you've vowed that one day you would work your way through history's greatest philosophers (Socrates, Plato, Aristotle, Augustine, Descartes, Locke, Rousseau, William James, and more) to ponder their thoughts and, ultimately, arrive at your own answers.

Yet who has the time? It would take years of dedicated study to thoroughly examine the eternal questions of human existence. But now...

...there *is* an uncommonly easy and effective way to understand the abiding issues confronted by the most prominent philosophers of the ages, grasping the *meaning* and *import* of their thinking. And best of all, you can learn at *your* convenience in the comfort of your home or car. This is the unparalleled learning experience offered you by The Teaching Company's audio/video course, **The Great Ideas of Philosophy**.

## GREAT IDEAS, A RARE TEACHER

This extraordinary 50-lecture series (fully 25 hours of instruction) covers more than 2500 years of thought. Yet, **The Great Ideas of Philosophy** is much more than a survey course. After identifying and explaining the recurring and eternal questions of philosophy, Prof. Robinson then demonstrates their connections to each other across centuries of debates. What's more, each lecture comes with an outline and a reading list to help you

further explore the ideas discussed.

Prof. Robinson teaches philosophy and psychology at Georgetown University, and is a regular visiting lecturer in philosophy at Oxford University. The Teaching Company identified him as a standout lecturer through our exacting search processes. We scour America from coast to coast, sparing no effort to find the ablest communicators, as identified by their teaching awards and high scores on brutally frank student evaluations.

Credentials aside, Dr. Robinson is one of those rare teachers whose respect for his audience, expertise, and rhetorical flair create an exceptionally enjoyable learning environment. He makes the ideas of philosophy thrilling, passionate, human, and divine. You will want to play the next tape, and the next, until Plato's *Republic* has given way to Descartes, the *Federalist Papers*, and, ultimately, a discussion of artificial intelligence.

**The Great Ideas of Philosophy** will take you inside the exciting world of thoughts that have captivated humankind for centuries and inspired great advances in Western civilization.

Order this course today—you may never view philosophy, or the world, in quite the same way again.

## THE CURRICULUM
