Heads Up!

The study of science just got more rewarding.

The Intel Science Talent Search Awards now total 1.2 Million.

Intel Corporation and the Intel Foundation have increased the amount awarded annually from \$330,000 to 1.2 million, including a \$100,000 four-year scholarship for first place.

Both students and schools will receive awards.

For the first time, the three hundred Semifinalists will be awarded \$1,000 each and \$1,000 per Semifinalist will be presented to their schools. In addition, the scholarship awards for the 40 Finalists will have a substantial increase.

For more information, visit www.sciserv.org.

Intel is proud to support the efforts of Science Service, a non-profit organization dedicated to advancing the understanding and appreciation of science. We share a common commitment to programs that encourage and reward student achievement in science, math and technology.
