## NOVAS DEL MENSE IN INTERLINGUA

**Alimentos.** – Quasi omne países de Europa occidental experienciava in 1964 un moderate declino del consumo de carne de bove e vitello.

**Anglistica.** – Un gruppamento de universitates, cooperante in le realisation de un objectivo o projecto particular, se designa in anglese american como "multiversitate".

**Astronomia.** – Le astronomo russe Dr. Yakimov ha discoperite un supernova, que se photographa in le dece-quinte magnitudine, in le vicinitate del objecto celeste designate como NGC 4688.

**Bibliothecas.** – On prevede le disveloppamento de plenmente automatisate bibliothecas que va esser capace a responder a un requesta telephonic per projicer quasi instantaneamente super un ecran de television in le home del inquiritor non importa qual pagina de non importa qual libro que ille desira consultar.

**Nomenclatura.** – Le Statounitese Consilio de Nomenclatura Approbate se occupa de formular regulas pro le formation del nomines de nove antibioticos e de approbar (o censurar) le nomines proponite per le discoperitores de nove antibioticos. Le Consilio coopera con varie organisationes in le Statos Unite e altere partes del mundo. Le schema de election in le composition de un neo-nomination antibiotic es – secundo le Consilio – derivar lo per medio de un suffixo ab le nomine del organismo que produce le antibiotico. Tamen, le termination "-mycina" debe esser reservate pro antibioticos produce per organismos del ordine Actinomycetales. Le existentia del Consilio – le necessitate de su existentia – reflecte le enorme boom in le industria del discoperta de nove antibioticos.

**Parturition.** – Al Hospital Sancte Maria in Green Bay, Wisconsin, 78 feminas ha parturite con le adjuta de hypnosis. A generalmente parlar, le labores esseva abbreviate e le dolores alleviate. Le medicos responsabile pro le experimento a Sancte Maria argue que le "horrores" del parturition es in grande mesura un mytho credite per multe feminas sub le "potentia del suggestion" de commatres sadista. Le correction de iste stato del cosas es un question de re-educar le frequentemente absurdamente intimidate gravida e, si necessari, de promover ille re-education per medio de un contra-suggestion de character technicamente hypnotic.

**Ressources de Energia.** – In 1965, petroleo e productos de petroleo remaneva le major fontes de energia in le Statos Unite. Carbon ha perdite ille honor; electricitate ha non ancora ganiate lo.

**Schizophrenia.** – On estima que 25 pro cento del lectos de hospital in omne le mundo es occupate per schizophrenicos. Le termino schizophrenia es non semper usate con un stricte definition. A vices illo coperi un multitudine de maladies mental. Definir le condition plus strictemente es difficile. Le causa de schizophrenia – in non importa qual senso – es controversa. In un campo on crede que le causa es physic, i.e., metabolic, e ergo attaccabile per agentes pharmacologic. In le campo opponite on regarda schizophrenia como un disturbance psychologic sin base somatic. Inter le remedios proponite e tentate per le "schola somatic", il es acido nicotinic (o vitamina B-3) que ha attrahite, si non approbation, al minus attention general. Isto es assi proque ille pharmaco pote esser usate innocentemente in relativamente grande quantitates. Si illo produce nulle beneficio, in omne caso illo non causa danos. Un nove disveloppamento in le tractamento de schizophrenia es le instauration del organisation "Schizophrenicos Anonyme". Illo es un imitation del ben-cognoscite organisation de adjuta mutual, "Alcoholicos Anonyme". Tamen, le "S.A." – per contrasto con le "A.A." – ha un programma specific de therapia. Iste programma include le extense uso de acido nicotinic.

**Vaccination.** – Le Fortias Armate de Canada considera le adoption de un quintivalente vaccino que ha essite disveloppate pro illos. Le vaccino protege contra typhoide, paratyphoide, tetano, diphtheria, e poliomyelitis.
