

# films OF THE WEEK

Listing is for readers' information of new 16mm and 8mm films on science, engineering, medicine and agriculture for professional, student and general audiences. For further information on purchase, rental or free loan, write to distributor.

**APOLLO IN PERSPECTIVE** — MSC-68-642. 16mm, color, sound, 14 min. Reviews the activities in the Manned Space Flight Program for 1967. Shows design changes and innovations resulting from the AS 204 accident and continues with the development of hardware in the Apollo-Saturn Program. Highlights the Apollo 4 Mission (AS 501) including the launch of America's largest rocket, Saturn V, and related activities in the Apollo lunar surface experiments. Audience: general. Free loan from National Aeronautics and Space Administration, Manned Spacecraft Center, AP2, Houston, Tex. 77058.

**LEARNING WITH YOUR EYES.** 16mm, color, or b&w, sound, 11 min. Shows students how to use their eyes for observing nature generally and for studying specific details about a single object such as a leaf or a caterpillar. Points out what to look for in comparing sizes, colors, and perspective. Suggests that students who exercise their powers of observation will learn more about the world about them and will not overlook many of its wonders. Audience: primary. Purchase color \$120 or b&w \$60 from Coronet Films, 65 E. South Water St., Chicago, Ill. 60601.

**MARIJUANA.** 16mm, color, sound, 34 min. Presents teenagers' attitudes, and how they feel about marijuana. Without making moral judgments, film examines the facts and consequences, including the physical dangers, legal implications, and emotional (drug dependency) problem. Purpose is to make it easier for teenagers to talk about, understand, and judge for themselves the consequences of marijuana. Audience: high school, college, adults. Purchase \$350 from Bailey Films, 6509 De Longpre Avenue, Hollywood, Cal. 90028.

**MARVELS IN MINIATURE.** 16mm, color, sound, 15 min. Through a microscope, the camera reveals the fascinating underwater life of plankton of the coral reef. Audience: general. Purchase \$106.50 or rental \$3.25 from Films Officer, Australian News and Information Bureau, 636 Fifth Ave., New York, N.Y. 10020 or Western States, Press and Information Officer, Australian Consulate-General, 350 Post St., San Francisco, Cal. 94108.

Picture credits for last week's stories on the urban crisis should have read as follows: Cover and p. 386—Morton R. Engelberg; p. 387—Patricia Allott. All photos from OEO.

# If you can read English you can assemble a Schober Organ and be a musical participant!

Isn't it time you became a musical participant, rather than just a listener? The organ is the instrument *adults* learn to play, because they play so well with so little effort.

And the best way to own an organ is to assemble your own from Schober's 100 percent complete kits, with the firm, step-by-step guidance of Schober's famous crystal-clear, nontechnical instructions that thousands of entirely untechnical people have followed successfully.

If you want to play *everything* from Bach to Cole Porter, you can choose the Recital Organ (right), physically and tonally so like a fine pipe organ that many people can't tell the difference. Everything you need (if you use your own hi-fi or stereo system for the sound) costs only \$1725. You can pay as you build, to spread the expenditure, and you couldn't buy the equivalent elsewhere for less than twice that price. Or you may choose another Schober Organ model. They start at \$645. Schober's enjoyable self-teaching courses give you musical results immediately, and the more you play the better you get.

Over 50% of Schober Organ owners never handled an electronic job before and didn't play a note, yet assembled some of the best organs ever designed and get a daily thrill from *making their own music*. Isn't it time for you to take this cost-saving road to greater musical pleasure—and enjoy the satisfaction of doing it yourself?

## The pipelike Recital Organ

FREE INFORMATION AND DEMONSTRATION RECORDING  
Send today for your free copy of Schober's 16-page, full color booklet, plus 7" free recording.

The Schober Organ Corp., Dept. SN-13

# Are You A Slow Reader?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to increase your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, most people, regardless of their present reading skill, can use this simple technique to improve their reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this publication with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new booklet, "How to Read Faster and Retain More" mailed free to anyone who requests it. No obligation. Send your name, address, and zip code to: Reading, 835 Diversey Parkway, Dept. 540-014, Chicago, Ill. 60614. A postcard will do. (Adv)
