SCIENCE NEWS LETTER[®]

Black fly
empties villages

Broad range of plug-in signal conditioners matched to the standard GPO galvos

Use either roll or fanfold paper in the GPO

(Above) Front panel zero adjustments simplify operation. (Below) GPO is light in weight and easy to carry or store.

Now...less than \$1,000 buys a complete* light beam oscillograph recorder

We've just made design breakthroughs that have enabled us to cut oscillograph costs in half without sacrificing performance. The resulting new instrument is easier to operate, easier to set up, and easier to read than any previous oscillograph.

The new Century Model 460 GPO (general purpose oscillograph) is a two-channel light beam recorder that is competitive in price with high-quality pen-and-ink or hot stylus recorders . . . yet it will record high-frequency phenomena flat to 2000 Hz.

The GPO is expandable to six channels simply by adding an optional magnet and galvanometer assembly. Cost-per-channel goes down, of course, as the number of channels is increased.

Many design refinements — such as frontpanel zero adjustments and adaptability to fanfold paper — make the GPO more versatile and easier to use as well as more economical. High quality construction is assured since the unit is backed by one of the industry's leading manufacturers.

Write us for your free copy of the illustrated brochure which describes this revolutionary new oscillograph.

*Complete with two galvanometers, two Model 567B signal conditioners, grid, and timing.

See the GPO at the Wescon Show. Booth number 3104A

SCIENCE SERVICE

The Institution for the Popularization of Science organized 1921 as a non-profit corporation

Board of Trustees—Nominated by the American Association for the Advancement of Science: Athelstan F. Spilhaus, University of Minnesota; Wallace R. Brode,*** Washington, D.C.; Bowen C. Dees, University of Arizona. Nominated by the National Academy of Sciences: Henry Allen Moe, The Clark Foundation; Harlow Shapley, Harvard College Observatory; Allen V. Astin, National Bureau of Standards. Nominated by the National Research Council: Glenn T. Seaborg,* U.S. Atomic Energy Commission; Leonard Carmichael, National Geographic Society; John R. Whinnery, University of California, Berkeley. Nominated by the Journalistic Profession: O. W. Riegel, ****Washington and Lee University; Gordon B. Fister, Call-Chronicle Newspapers; Eugene Patterson, Atlanta Constitution. Nominated by the Scripps Estate: John Troan, Pittsburgh Press; Ludwell Denny, Scripps-Howard Newspapers; Edward W. Scripps II,** Edward W. Scripps Trust. * President, ** Vice President, *** Treasurer, **** Secretary.

Director: E. G. Sherburne Jr.
Assistant Director: Dorothy Schriver.

Staff: Science Youth Division: Joseph H. Kraus, Lloyd Ulmer. Photography: Fremont Davis. Syndicate Sales: Forrest L. Snakenberg.
