

New Ideas and Gadgets

New Ideas and Gadgets is an editorial service to readers; more information on items can be secured from the manufacturers.

Stroboscopic Speedlight

Capable of 30 flashes per second, this speedlight is suitable for stroboscopic studies in industry, scientific research or in medicine. It can be used to make multiple-image exposures on a single frame or single flash pictures of high speed objects. The unit can be used also with motorized cameras.

Wein Products Inc., P. O. Box 34647,
Palms, Calif. 90034

Histology Kit

Work in histology laboratories is made easier with this compact kit for periodic acid-Schiff (PAS) staining. Reagents in ready-to-use form eliminate the need to mix and prepare materials. To stain specimens, the technician simply dips the slide in the various chemicals.

Fisher Scientific Co., 414 Fisher Bldg.,
Pittsburgh, Pa. 15219

Graphite Gaskets

Highly resistant to corrosive chemicals and unaffected by temperatures from minus 200 to 1,200 degrees F., these graphite gaskets and packing products are flexible, compressible and resilient. Maintenance-free, they contain no fillers and do not suffer chemical deterioration. Gaskets are available in one- to 20-inch pipe sizes or can be ordered to suit individual requirements.

Union Carbide Corp., Carbon Products Div.,
270 Park Ave., New York, N.Y. 10017

Pocket-size Stove

A cup of coffee is available anywhere for the sportsman, camper or hiker who has this 12-ounce alcohol stove that has no moving parts except

for folding supports. Its combination burner and fuel compartment is filled with asbestos-like material that absorbs the alcohol, which is released as it burns. Entirely spill and leak proof, the stove comes with a lid that acts as a snuffer.

Glax's Inc., 11 Addison St., Larchmont, N.Y.

Solid State Receiver Kit

This easy-to-assemble solid state receiver kit is designed for beginners and students. All necessary materials are included for making a two-transistor radio, which fits a transparent plastic case.

Semitronics Corp., 265 Canal St.,
New York, N.Y.

Three-D Plotter

Useful in aerospace engineering, scientific research, relief mapping or meteorology, this data plotter makes permanent models of charts and graphs in three dimensions. The plotter automatically drives steel wires up through a plotting board directed by information fed into it from a data source.

Spatial Data Systems, Inc., Bulletin #201-A,
108-A Aero Camino, Goleta, Calif. 93017

Conductive Cement

Easy to apply with a spatula, or by silk screen, this high temperature, electrically conductive cement consists of a thermosetting resin containing silver. Adhering to both porous and nonpor-

ous materials, it is useful for cementing conductors and terminals on electronic components. It is cured after application by baking at 400 to 500 degrees F.

Acheson Colloids Co., Fort Huron, Mich. 48060
