Ordco RANGE FINDER

Conceived by Dr. Luis Alvarez, renowned physicist and inventor of the GCA ground control approach, this is an ideal instrument for golfers and yachtsmen. Great for survey of rough terrain, and for anybody who wishes to measure distances from 6 feet to almost as far as the eye can reach—even for certain astronomical observations. Measures in yards, nautical or statute miles. **\$18.50.**

If you are given to vertigo, beware touching the "go" button of this powerscope. Smooth 2x-40x zoom may be more than you bargained for! Clear focus thru entire range and instant stop at any magnification. 40mm objective. 141' at 1000 yds. Penlite battery powered. Includes tabletop panning tripod, pistol-grip for hand-holding & vinyl case. In presentation box \$49.95. Optional de-luxe full-length tripod \$16.95.

Emoskop VESTPOCKET OPTICAL SYSTEM

Remove the EMOSKOP from its fitted leather case and it's a 30x microscope. A twist of the wrist converts it into a 2.5x telescope. Another twist and you have your choice of magnifiers: 5x, 10x, and 15x. Perfect vest-pocket companion for the exacting professional and scientist. Five coated lenses, absolutely aplanatic and achromatic. **Modern Photography** calls the EMOSKOP "... only magnifier worthy of name." 1¾" x ¾". **\$14.95**

"They laughed when I wound up my shaver..."

That's liable to happen to you when you first use the Riviera in front of anyone. After all, how can a "wind-up" shaver be more than a plaything or at best an emergency type of shaver? But, you will have the last laugh! With one single winding (about six turns, just like a movie camera) you will get a complete shave—the fastest, smoothest and closest you ever had.

Hard to believe, but really true. Free yourself from electricity and paraphernalia and treat yourself to the *Riviera*. Use it as your "number one" shaver or for office, club or cabin. You will be delighted. A mechanical marvel from Monaco.

ONLY **\$18.50** COMPLETE
