

A SPLIT SECOND IN ETERNITY

The Ancients Called It COSMIC CONSCIOUSNESS

Must man die to release his *inner consciousness*? Can we experience *momentary flights of the soul*—that is, become *one with the universe* and receive an influx of great understanding?

The shackles of the body—its earthly limitations—can be thrown off and *man's mind can be attuned* to the Infinite Wisdom for a flash of a second. During this brief interval intuitive knowledge, great inspiration and a new vision of our life's mission are had. Some call this great experience a psychic phenomenon. But the ancients knew it and taught it as *Cosmic Consciousness*—the merging of man's mind with the Universal Intelligence.

Let This Free Book Explain

This is *not* a religious doctrine, but the application of *simple*, natural laws which give man an insight into the great Cosmic plan. They make possible a source of great joy, strength and a regeneration of man's personal powers. Write to the Rosicrucians, an age-old brotherhood of understanding, for a *free* copy of the book, "The Mastery of Life." It will tell you how, in the privacy of your own home, you may indulge in these mysteries of life known to the ancients. Address: Scribe U.C.B.

New ideas

New Ideas and Gadgets is an editorial service to readers; more information on items can be secured from the manufacturers.

Spills bucket

A safety aid for laboratories, this spills bucket is a plastic pail containing seven pounds of sand and soda ash. The contents are suitable for absorbing either acid or alkali spills and for smothering small chemical fires.

Price: \$3.75.
Matheson, Coleman and Bell,
2909 Highland Ave., Norwood, Ohio.

Acid-base calculator

Quick answers to thousands of acidity problems can be obtained without referring to a logarithmic table by using this pocket-size calculator printed on heavy paper. A convenient tool for both chemists and students, the calculator comes with sample problems and instructions. A pH table is available separately to teachers and chemists only, addressed to places of employment.

Price: Calculator \$1.00—pH tables \$2.00.
Skool Aids, 22110 Marlow,
Oak Park, Mich. 48237.

Embedding kit

A clear smooth glass-like resin that hardens at room temperature and all other materials necessary for embedding shells, leaves and other specimens or for casting objects from molds, are included in this kit. The hardened resin can be sawed, drilled, painted or carved with ordinary woodworking tools.

Price: \$5.50.
Edmund Scientific Co., 301 E. Gloucester Pike,
Barrington, N.J. 08007.

Copper coating

When melted and sprayed onto a smooth ceramic or glass surface, this powder produces a highly conductive copper coating. Useful for applying conductive paths on ceramics or for spraying printed circuits through a pattern onto ceramic parts, the material is applied in three simple steps: wipe clean, preheat and spray.

Price: available from manufacturer.
Metco Inc., Department 325,
1101 Prospect Ave., Westbury, L.I. New York.

Holographic camera

Insulated against vibration, this camera system is suitable for experimental work with the basic holographic process as well as for projects utilizing holography in optical scanning systems, electronics, stress and strain analysis, transducer design and three-dimensional visual design work. The 15-pound holographic camera is usable with various laser models.

Price: \$1,995.
Optics Technology Inc., 901 California Ave.,
Palo Alto, Calif. 94304.
