182. THE FANNIE FARMER COOKBOOK 11th edition. Illus. (Ret. price \$6.95)

161. JOY OF COOKING by ROMBAUER and BECKER (Ret. price \$6.95)

BOOK-DIVIDENDS: A library-building plan every reading family should know about

THE EXPERIMENTAL MEMBERSHIP suggested here will not only prove, by your own actual experience, how effectually membership in the Book-of-the-Month Club can keep you from missing, through oversight or overbusyness, books you fully intend to read; it will also demonstrate another important advantage: **Book-Dividends**. Through this unique profit-sharing system members can regularly receive valuable library volumes—at a small fraction of their retail prices—simply by buying books they would buy even if they were not Book-of-the-Month Club members.

If you continue after this experimental membership, you will earn, for

every *Book-of-the-Month Club Selection* or *Alternate* you buy, a *Book-Dividend Credit*. Each Credit, upon payment of a nominal sum, often only \$1.00 or \$1.50—somewhat more for unusually expensive volumes—will entitle you to a valuable *Book-Dividend* which you may choose from over a hundred fine library volumes now available.

This is probably the most economical means ever devised for building a well-rounded personal library. Since its inauguration, the almost incredible sum of nearly \$458,000,000 worth of books (retail value) has been earned and received by *Book-of-the-Month Club* members through this unique plan.

BOOK-OF-THE-MONTH CLUB, INC.
 280 Park Avenue, New York, N.Y. 10017 A 439-1-1

Please enroll me as a member of the *Book-of-the-Month Club* and send me the three volumes whose numbers I have indicated in boxes below, billing me \$1.00 for all three volumes. I agree to purchase at least three additional monthly Selections or Alternates during the first year I am a member, paying the special members' prices. I have the right to cancel my membership any time after buying these three books. If I continue after this trial, I will earn a *Book-Dividend Credit* for every Selection—or Alternate—I buy under the system described at left. (A small charge is added to all book shipments to cover postage and mailing expense.) **PLEASE NOTE:** Occasionally the Club offers a *Double Selection*, two books at a *special combined price*. Such purchases are counted as a single book in fulfilling the membership obligation.

- 7 Apollo 8: breaking the cocoon
- 9 Crystallographers decipher transfer-RNA
Pulsars: neutron stars to the fore
- 10 CERN: brighter prospects for the 300 GeV
- 11 Federal science support: a frightening trend
Ultrasonic bubble chamber
- 12 Burning the forest: an ecological plus
- 2 **Astrophysics:** Gravity wave detector; Evolution from Seyfert galaxies;
Radiation from quasars shows peaks; Two rotation periods for the sun;
Pulsars as sources
- 13 **Medical Sciences:** Home treatment for heart attack victims; Warm air
treatment for burns; Lead still a controversy; Snail disease attacked;
Successful treatment for sexual precocity in girls
- 14 **Engineering Sciences:** Antiskid road works; Fast-frozen meat more
tender; New plutonium process found; Bridge stability warning system;
Rocket gun patented; Pilot plant for cellulose conversion
- 15 **Aerospace:** Device to reduce airplane skidding accidents; Study proposed
of roving moon vehicle; Vertigo-inducing flight simulator; Two biosatellites
terminated; Offshore airports; Australians study aircraft noise; Fifth
global TV satellite
- 16 **Life Sciences:** Scorpion stings and heart disease; FDA cautious on
cyclamates; DDT poisoning explained; Male prisoners get female hor-
mones; First fossil lamprey described

The Apollo 8 astronauts (p. 7) will forever have the glory of having been the first men in the vicinity of the moon. But they are trailblazers for their colleagues who, in Apollo 11, will begin the first scientific work on the lunar surface. p. 17 (Photo: NASA)
