PAINT NOW, LEARN LATER

Start right now creating and hanging original oils!

FAMOUS ARTIST SHOWS HOW!

If you would like to paint but have never done anything about it—this book is for you. If you have been scared off because you didn't know the "rules"—this book is certainly for you.

LET RULES COME LATER! Guy Williams, the famous teacher who is also a highly successful artist, says the FUN OF PAINTING should start right away. That's why he starts you in painting—and enjoying it!—the very first day. Don't worry about rules! Great artists break them every day! Of course you'll learn them later from the book. But right now, Williams insists you take up oils, watercolors, pastels, charcoal, crayon, ink, or pencil—and see how easily human figures, still-life compositions, and natural scenes take shape on your paper or canvas.

YOU'LL BE AMAZED how quickly the techniques of painting come to you with the help of Guy Williams' experienced guidance. It's almost like working in his studio, feeling his hand on your shoulder as he explains how to handle perspective . . . how to show dimension, light and shadow . . . how to use line and color to portray moods of sadness, joy, speed, languor, youth, age, day, night, etc.
