# STOP SAYING . . . "I CAN'T AFFORD TO TRAVEL"

**8 BOOKS THAT GIVE YOU  
THE FACTS ON HOW YOU  
CAN TRAVEL TODAY  
WITHOUT BEING RICH**

## AROUND THE WORLD BY FREIGHTER

**Where and how to travel by freighter  
—the lower cost way to travel**

For no more than you'd spend at a resort, you can take a never-to-be-forgotten cruise to Rio or Buenos Aires. Or through the Canal or to the West Indies or to England, France, the Mediterranean, etc.

And what accommodations you get—large rooms with beds (not bunks), probably a private bath, lots of good food, and plenty of relaxation as you speed from port to port.

*Travel Routes Around the World* names the freighter lines (700 of them, with sailings from practically every port in the world), tells where they go, what they charge, briefly describes accommodations plus life on your freighter, clothes to take, etc.

To stop saying that travel is expensive, get your copy now. Price, \$1.

## BARGAIN PARADISES OF THE WORLD

**West Indies, Mexico, Californias Abroad**

This is a book on how to double what your money can buy. For that is what spending a few weeks or months, or even retiring, in the world's Bargain Paradises amounts to.

Throughout this big book you learn where to spend a while in the West Indies, South America, the healthful islands of the South Seas, and the marvelous Balearic Islands where two can live like kings for \$50 a week.

You read about cities and towns where it's always spring, about "Californias Abroad," about "Four Modern Shangri-Las," about mountain hideaways, tropical islands as colorful as Tahiti but nearer home, about modern cities where you can live for less, about quiet country lanes and surf-washed coastal resorts.

If you've ever wanted to travel but wondered how you could afford it; if you have a little income but wonder how you'd ever be able to retire on that; if you want a life of luxuries on what you'd get only necessities back home, then you want this book. \$1.50.

**SPECIAL OFFER:** All 4 books above—*Travel Routes Around the World*, *Bargain Paradises of the World*, *How to Travel Without Being Rich*, and *Off-the-Beaten Path*—(\$6 value) for only \$4.

## FABULOUS MEXICO—WHERE EVERYTHING COSTS LESS

The land of retirement and vacation bargains, where you can build a modern home for \$4500 and an American retirement income looks like a fortune, and your vacation money can buy double or more what it might back home. Norman Ford shows you vacation and retirement values where you can live like a prince on what you might just get along on in the U.S.A. He pinpoints areas that look like the South Seas, others where it's like June all year round, towns where many other Americans have retired; shows where to find modern, flower-bedecked hotels and inns that charge hardly half of what you'd expect to spend in even such a land of vacation and retirement bargains as Mexico. *Plus a big section on where to start your money earning so much more than in the U.S.A.* \$1.50.

## HOW TO TRAVEL WITHOUT BEING RICH

Do you know it costs only \$179 to travel all the way to Argentina through colorful Mexico, the Andes, Peru, etc. by bus and rail? Or that there are half a dozen round the world routings for around \$1000?

If you know the seldom-advertised ways of reaching foreign countries, you don't need fantastic sums of money in order to travel. This book shows you the lower cost, comfortable ways to practically any part of the world. Here are the ship, rail, bus, airplane, and other routings that save you money and open the world to you.

This is the guide that helps you explore the West Indies like an old time resident who knows all the tricks of how to make one dollar do the work of two. Roam around Mexico, South America, Europe, elsewhere? This is the guide that tells you where and how to go at prices you can really afford. \$1.50.

## OFF-THE-BEATEN PATH

**—these are America's own  
Bargain Paradises**

*Where to retire or vacation at what look like prewar prices and no one ever heard of nerves or worries.*

*Off-the-Beaten Path* names the really low cost Florida retirement and vacationing towns, the topnotch values in Texas, the Southwest, California, the South and East, Canada, and a dozen other areas which the crowds have not yet discovered.

—Fabulous places like that undiscovered region where winters are as warm and sunny as Miami Beach's, yet costs can be 2/3rds less. Or that island that looks like Hawaii yet is 2000 miles nearer. Or France's only remaining outpost in this part of the world . . . or a village more Scottish than Scotland . . . or resort villages without crowds or high prices . . . or island paradises aplenty in the U.S. or Canada . . . or areas with almost a perfect climate. And for good measure you also read about low cost paradises in Hawaii, the Virgin Islands, and Puerto Rico.

*A big book, with about 100,000 words and plenty of pictures. Yet it costs only \$2.*

## AMERICA BY CAR

This big book is your insurance of seeing all the 4-star sights in whatever corner of the U.S., Canada, or Mexico you drive to. Whether you're visiting New England or California, Florida or the National Parks, the Great Lakes, the Mississippi, the East, the South, the Southwest, the Indian country, etc., it tells you day by day and road by road the scenic way to go and it always directs you to the important sights along the way and in the cities. In Niagara or Los Angeles, Washington or New Orleans, the Black Hills or Montreal, it takes the guesswork out of travel.

America is so big you can easily overlook or forget important sights or make many a wrong turn. So get *America by Car*, the book that makes sure you'll see everything of consequence and always travel right. Only \$2.50 for this 100,000 word book (as big as 3 ordinary-sized novels).

## WHERE WILL YOU GO IN FLORIDA?

Florida needn't be expensive—not if you know just where to go for whatever you seek in Florida. And if there's any man who can give you the facts you want, it's Norman Ford, founder of the world-famous Globe Trotters Club.

His big book, *Norman Ford's Florida*, tells you, first of all, road by road, mile by mile, everything you'll find in Florida, whether you're on vacation or looking over job, business, real estate, or retirement prospects.

Always, he names the hotels, motels, and restaurants where you can stop for the best accommodations and meals at the price you want to pay. For that longer vacation, if you let Norman Ford guide you, you'll find a real "paradise"—just the spot which has everything you want.

Of course, there's much more to this big book. If you want a home in Florida, he tells you just where to head. If you've ever wanted to run a tourist court or own an orange grove, he tells you today's inside story of these popular investments.

If you want to retire on a small income, Norman Ford tells you exactly where you can retire now on the money you've got, whether it's a little or a lot. Because he always tells you where life in Florida is pleasantest on a small income, he can help you to take life easy now.

Whatever you seek in Florida, *Norman Ford's Florida* gives you the facts you need to find exactly what you want. Well over 100,000 words, but it costs only \$2—only a fraction of the money you'd spend needlessly if you went to Florida blind.

## HOW TO TRAVEL— AND GET PAID FOR IT

There's a job waiting for you somewhere—on a ship, with an airline, in foreign firms, etc. The full story of what job you can fill is in *How to Travel—and Get Paid for It*. Whether you're male or female, young or old, whether you want a lifetime of paid traveling or just hanker to roam the world for a short year or two, here are the facts you want, complete with names and addresses and full details about the preparations to make, the customs to observe, the countries to head for. You learn about jobs in travel agencies, in importing and exporting concerns. Here is the story of jobs in the Red Cross and UN organizations, how doctors get jobs on ships, the wonderful travel opportunities if you will teach English overseas and the fabulous opportunities for those who know stenography. To travel and get paid for it, get this book. \$1.50.

If the laws of physics are universal, then some fundamental constants should apply to the universe as well as to the heart of the atom. The late Dr. George Gamow's last work was a search for such universal relations. p. 119
