\$5 million to fix
THE CRACKS IN YORK MINSTER

Bioresearch's Policy Chief
Talent Search Climax
Letter from Bombay
chaotic science congress

A Science News reporter has two points of view.

Science News reporters are both scientific specialists . . . and experienced, exacting journalists.

From coast to coast and around the world they seek out up-to-the-minute, hard-fact news of current scientific happenings . . . and send it back to our Washington-based staff for expert editing. Our perceptive professionals contribute realistic evaluations and interpretations of occurrences in virtually every scientific and technical field . . . in-depth stories that provide the perspective . . . features and columns that emphasize what's new and significant in research, development, exploration and discovery. In addition, they supply us with pertinent photographs, diagrams, drawings, maps and other illustrative material.

You enjoy their two points of view.

Why not send a gift subscription to somebody else who will enjoy Science News as much as you do?

Simply fill out the coupon below and mail it to us. We'll take care of the rest.

Complete and send to: Science News, 1719 N Street, N.W.,

OF THE WEEK

- 255 Apollo: despite glitches and viruses
- 256 Revising (perhaps) Intelsat
- 257 Science and the conscience gap
Controlling medical machinery
- 258 Pollution's strange bedfellows
Drug dosage: unpredictable
- 259 **Medical Sciences:** Kidney machine sobers alcoholics; Plastic sacks for frozen blood; Dental surgery outside the office; Handbook defines radiation levels; Number of transplant donors drops; Carbon tet and wig cleaning
- 260 **Physical Sciences:** Breaking a virus with sound; Pauli exclusion principle; Nature of the mascons; Optical variations of quasars; Pulsars and the magnetic field; Escape rate of hydrogen
- 261 **Natural Sciences:** Selective poison for dogfish; Komodo dragons to be studied; Cold-water coral reef; Deer may starve full of food; Why monkeys can't talk
- 262 **Oceanography:** Sausage sea barrier successful; Blanket keeps fish warm; Plastic seaweed for beaches; Electron beacon for ships; Undersea vehicle planned; Two-man hovercraft

Splitting stonework high in York Cathedral is a symptom of a centuries-old disease—too much church on too little foundation. Engineers are now holding the minster together with stainless steel. p. 268 (Photo: Shepherd Building Group)
