FROM CALIFORNIA'S FAMOUS NURSERYMEN'S EXCHANGE COMES AMAZING NEWS! BRAZIL'S RARE—EXOTIC—ASTONISHING TREE TOMATO is now available anywhere in the U.S.A.!

And in a newly-developed super-hybrid variety that harvests up to 40 lbs. (hundreds of tomatoes) year—thousands of tomatoes up to 10 years—FROM ONE TOMATO TREE!

An astonishing South American tomato fruiting tree that gives stunning blossoms for months, blooms yearly even in the North, grows as a tree *outdoors* and with tropic ease *indoors*, now is perfected and made available by plant scientists anywhere in America.

What Happened In Half Moon Bay!

The growing fields of California's famous Nurseryman's Exchange are located in Half Moon Bay and there the Danish American Hybridizer, Jerry Jensen, married Brazil's tree tomato to the U.S.A.

South America's luscious tree tomato was discovered by Brazilian Indians; brought to richest, fullest flavor and lushness by Portuguese missionaries; and hybridized to a super-resistant super-easy-to-grow variety by Jensen.

There are 30 different varieties of tree tomatoes in South America but only one is the lushest, most delicious and easiest-to-grow of them all! And that one was made over after four years of hybridizing at Half Moon Bay—working with various universities—discarding weaker, keeping stronger strains—until the final super variety was ready for you.

Who Put All Those Tomatoes In That Itty Bitty Seed

Imagine one seed *does produce* over 400 lbs. of tomatoes in *one lifetime*.

And Brazil's super Tree Tomato is so easy to raise that 80% of normally-planted seeds take. So easy it will grow inside anyplace a philodendron will grow! In actual test seeds thrown at random in plowed fields, it grew with *no* human care. Each seedling grows to 3 or 4 ft. indoors or up to 8 ft. outdoors or you can stop the growth of the tree at any height you wish between 3 and 8 feet. It is super disease-resistant. Imagine stunning exotic-shaped leaves up to one foot long! Imagine the constant changing show. First the lovely leaves—then a shower of fragrant flowers—and finally a beautiful array of luscious tomatoes. And this fruiting period goes on for *five* months.

A Family Delight

Show your children nature's mysterious way of bringing a South American fruit-bearing season right into your own home and *reversing* the U.S. season. Surprise and delight your friends.

Enjoy delicious, mouth-watering salads, freshest sauces, special jams and desserts—all winter long. See huge hanging clusters of succulent red, plump and juicy tree tomatoes in successive waves month after month. Indoors, pluck your own dinner tomatoes.

Each Tomato Costs Tiny Fraction of a Cent!

Accept our introductory offer. Frankly we want everyone who enjoys delicious fresh tomatoes and gorgeous beautiful blooms and blossoms to enjoy this super-hybrid Tree Tomato.
