

PHOTOGRAPHS OF SCIENTISTS

Science Service has a collection of nearly 2,000 photographs of scientists throughout the world. The seventh installment of this list is published below. Although this list has been checked with care, corrections are requested, since a complete catalog will be issued later. Photographs of scientists not listed are desired.

For the convenience of teachers and scientific enthusiasts, these photographs are offered for sale. Any ten photographs (each postcard size 3 1/8 x 5 3/8 inches) will be sent postpaid for only \$2.00. Enlargements, 8 x 10 inches, are \$1.00 each postpaid. Postcard pictures are finished only in black and white, but enlargements are offered either in black and white or sepia on buff stock. Please specify which.

Starred (*) photographs can be furnished as \$1.00 enlargements only. Photographs at these prices are sold with the understanding that they are not to be used for publication.

How to Use Key-Word Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can clip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the righthand pages is backed by advertising, standing matter or a continuation of the article on the other side.

Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication of the Government of the card index of all new books. We print below a list of the subject titles which are most used in the SCIENCE NEWS-LETTER. The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.

Dewey Classification

The main divisions of the Dewey Decimal Classification, used in many libraries and by many individuals, is given below for the convenience of those who wish to use this system:

000 GENERAL WORKS—
 010 Bibliography
 020 Library economy
 030 General cyclopedias
 040 General collected essays
 050 General periodicals
 060 General societies
 070 Newspapers
 080 Special libraries. Polygraphy
 090 Book rarities
 100 PHILOSOPHY—
 110 Metaphysics
 120 Special metaphysical topics
 130 Mind and body
 140 Philosophical systems
 150 Mental faculties. Psychology
 160 Logic
 170 Ethics
 180 Ancient philosophers
 190 Modern philosophers
 200 RELIGION—
 210 Natural theology
 220 Bible
 230 Doctrinal. Dogmatics. Theology

ABOUT BUYING BOOKS—

We know how much trouble it sometimes is to get the book that you want.

So if you want to add to your library any book reviewed or noted in the SCIENCE NEWS-LETTER, or any book in print—just remit to us the publisher's price and we shall rush the book to you postage prepaid.

Don't hesitate to consult with us on your book problems.

SCIENCE SERVICE
 21st and B Sts.
 Washington, D. C.

Teachers, Professors, Librarians, Club Leaders:

6c. a Week

*(\$1.25 for second semester, February through June; \$3.00
for calendar year)*

is the special price of quantity subscriptions (10 or more
to same address) to
SCIENCE NEWS-LETTER

when ordered by colleges, schools, libraries and clubs.

*The SCIENCE NEWS-LETTER is a living text-book that will
vitalize science study. Each week it will bring to your
classes a summary of the organized science knowledge of
the world. Every field of science is covered. No book can
do it. For the price of ONE text-book you can obtain in the
NEWS-LETTER matter that would fill FIVE large books.*

*During the past four years thousands of copies have been
used in science classes throughout the country.*

→ Orders must be for ten copies or more to go to one address. ←

(Single subscriptions are \$5.00 a year, 10 cents a week.)
