

PHOTOGRAPHS OF SCIENTISTS

Science Service has a collection of nearly 2,000 photographs of scientists throughout the world. The eighth installment of this list is published below. Although this list has been checked with care, corrections are requested, since a complete catalog will be issued later. Photographs of scientists not listed are desired.

For the convenience of teachers and scientific enthusiasts, these photographs are offered for sale. Any ten photographs (each postcard size $3\frac{1}{8} \times 5\frac{3}{8}$ inches) will be sent postpaid for only \$2.00. Enlargements, 8 x 10 inches, are \$1.00 each postpaid. Postcard pictures are finished only in black and white, but enlargements are offered either in black and white or sepia on buff stock. Please specify which.

Starred (*) photographs can be furnished as \$1.00 enlargements only. Photographs at these prices are sold with the understanding that they are not to be used for publication.

Say you saw it advertised in the SCIENCE NEWS-LETTER

How to Use Key-Word Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can clip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the righthand pages is backed by advertising, standing matter or a continuation of the article on the other side.

Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication of the Government of the card index of all new books. We print below a list of the subject titles which are most used in the SCIENCE NEWS-LETTER. The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.

B Philosophy.
 BF Psychology.
 G Geography, voyages, travel.
 GA Mathematical and astronomical geog-raphy.
 GB Physical geography.
 GC Oceanology and oceanography.
 GF Anthropogeography.
 GN Anthropology. Somatology. Ethnol-ogy. Ethnography. Prehistoric ar-chaology.
 GR Folklore.
 GT Manners and customs.
 GV Sports and amusements. Games.
 HC Economic history and conditions. National production.
 HE Transportation and communication.
 HF Commerce.
 HM Sociology. General.
 L Education.
 M Music.
 N Fine Arts.
 P Philology and linguistics.
 Q Science. General.
 QA Mathematics.
 QB Astronomy.
 QC Physics.
 QD Chemistry.
 QE Geology.
 QH Natural history.
 QK Botany.
 QL Zoology.
 QM Human anatomy.
 QP Physiology.
 QR Bacteriology.
 R Medicine. General.
 S Agriculture. General.
 SB Field crops. Horticulture. Land-
 scape gardening. Pests and plant
 diseases.
 SD Forestry.
 SF Animal culture. Veterinary medicine.
 SH Fish culture and fisheries.

SK Hunting. Game protection.
 T Technology. General.
 TA Engineering—General.
 TC Hydraulic engineering.
 TD Sanitary and municipal engineering.
 TE Roads and pavements.
 TF Railroads.
 TG Bridges and roofs.
 TH Building construction.
 TJ Mechanical engineering.
 TK Electrical engineering and industries.
 TL Motor vehicles. Cycles. Aeronautics.
 TN Mineral industries. Mining and Me-
 tallurgy.
 TP Chemical technology.
 TR Photography.
 TS Manufactures.
 TT Trade.
 TX Domestic science.
 U Military science. General.
 V Naval science. General.

Dewey Classification

The main divisions of the Dewey Decimal Classification, used in many libraries and by many individuals, is given below for the convenience of those who wish to use this system:

000 GENERAL WORKS—
 010 Bibliography
 020 Library economy
 030 General cyclopedias
 040 General collected essays
 050 General periodicals
 060 General societies
 070 Newspapers
 080 Special libraries. Polygraphy
 090 Book rarities
 100 PHILOSOPHY—
 110 Metaphysics
 120 Special metaphysical topics
 130 Mind and body
 140 Philosophical systems
 150 Mental faculties. Psychology
 160 Logic
 170 Ethics
 180 Ancient philosophers
 190 Modern philosophers
 200 RELIGION—
 210 Natural theology
 220 Bible
 230 Doctrinal. Dogmatics. Theology
 240 Devotional. Practical
 250 Homiletic. Pastoral. Parochial
 260 Church. Institutions. Work
 270 Religious history
 280 Christian churches and sects
 290 Ethnic. Non-Christian
 300 SOCIOLOGY—
 310 Statistics
 320 Political science
 330 Political economy
 340 Law
 350 Administration
 360 Associations. Institutions
 370 Education
 380 Commerce. Communication
 390 Customs. Costumes. Folklore
 400 PHILOLOGY—
 410 Comparative
 420 English
 430 German
 440 French
 450 Italian
 460 Spanish
 470 Latin
 480 Greek
 490 Minor languages
 500 NATURAL SCIENCE—
 510 Mathematics
 520 Astronomy

530 Physics
 540 Chemistry
 550 Geology
 560 Paleontology
 570 Biology
 580 Botany
 590 Zoology
 600 USEFUL ARTS--
 610 Medicine
 620 Engineering
 630 Agriculture
 640 Domestic economy
 650 Communication. Commerce
 660 Chemical technology
 670 Manufactures
 680 Mechanic trades
 690 Building
 700 FINE ARTS—
 710 Landscape gardening
 720 Architecture
 730 Sculpture
 740 Drawing. Decoration. Design
 750 Painting
 760 Engraving
 770 Photography
 780 Music
 790 Amusements
 800 LITERATURE—
 810 American
 820 English
 830 German
 840 French
 850 Italian
 860 Spanish
 870 Latin
 880 Greek
 890 Minor languages
 900 HISTORY—
 910 Geography and travels
 920 Biography
 930 Ancient history
 Modern
 940 Europe
 950 Asia
 960 Africa
 970 North America
 980 South America
 990 Oceanica and polar regions

ABOUT BUYING BOOKS—

We know how much trouble it sometimes is to get the book that you want.

So if you want to add to your library any book reviewed or noted in the SCIENCE NEWS-LETTER, or any book in print—just remit to us the publisher's price and we shall rush the book to you postage prepaid.

Don't hesitate to consult with us on your book problems.

SCIENCE SERVICE

 Washington, D. C.

Newspapers Know

the value of timely information. SCIENCE SERVICE supplies the wide demand for scientific news through the medium of its ten services. These services are daily, weekly and monthly—the prices are such that any newspaper can purchase one or more of them however inelastic the budget may be.

Check the services below you feel will benefit your immediate community the most—and send us the name of your editor and his paper. We will gladly send him samples of our services.

Daily Science News Bulletin is a daily service to newspapers, large and small. Three to five up-to-the-minute vivid stories are at the editor's disposal in each mailing.

Illustrated Feature Articles, issued each week, are our most pretentious product. They are written on timely subjects and are complete with photo-prints, suitable for use in Sunday or special editions.

Telegraphic Specials give to the editor news of the large scientific meetings of importance. Each day during meetings such news is wired to newspapers by one of our staff on the scene.

Why the Weather is issued each day—and in it Dr. Charles F. Brooks, meteorologist, tells the "why" of climatic conditions that puzzle. Weather conditions near and far are brilliantly, cleverly explained.

Nature's Notebook is a daily feature of special appeal to boys and girls who love the small folk of wood and field and sky. Grown-ups, also, are interested in this illustrated service.

Isn't It Odd is a weekly feature dealing with the oddities of the folk, little and big, in the world of Nature.

Current Radio is a daily feature that gives to the radio enthusiast instructive knowledge of this new wonder and teaches him not only to RECEIVE but to SEND. Clear line-drawings accompany each article.

Science Shorts comprises from forty-five to fifty authentic sentences of scientific trend and prove excellent whether used as fillers or as a daily feature in groups of six or eight.

Photographic Service, picturing men and women in the world of science and their accomplishments, gives to editors distinctive and graphic science news. Short biographies and explanations accompany each picture.

The Star Story Map is a monthly article concerning the inhabitants of the sky. It is illustrated, thus each star is definitely placed for the readers of this feature.

Ventures Into Science are daily articles written especially for the editorial page. Each venture is complete and interprets as well as tells in clever fashion the latest in science.

We shall be glad to cooperate with you in the placing of any of our services in the newspaper you read.
