

# PHOTOGRAPHS OF SCIENTISTS

Science Service has a collection of nearly 2,000 photographs of scientists throughout the world. The tenth installment of this list is published below. Although this list has been checked with care, corrections are requested, since a complete catalog will be issued later. Photographs of scientists not listed are desired.

For the convenience of teachers and scientific enthusiasts, these photographs are offered for sale. Any ten photographs (each postcard size  $3\frac{1}{8} \times 5\frac{3}{8}$  inches) will be sent postpaid for only \$2.00. Enlargements, 8 x 10 inches, are \$1.00 each postpaid. Postcard pictures are finished only in black and white, but enlargements are offered either in black and white or sepia on buff stock. Please specify which.

Starred (\*) photographs can be furnished as \$1.00 enlargements only. Photographs at these prices are sold with the understanding that they are not to be used for publication.

# THE MODERN WORLD

A Monthly Magazine

Edited By

JESSE LEE BENNETT

Author of "Frontiers of Knowledge," "The  
Essential American Tradition," etc.

A MAGAZINE SEEKING TO DEAL CONSTRUCTIVELY WITH THE IDEAS, THE PERSONALITIES AND THE INSTITUTIONS WHICH ARE MOLDING AND SHAPING THE CONTEMPORARY WORLD. A NON-NATIONALIST, NON-PARTISAN, NON-SECTARIAN, NON-DOCTRINAIRE JOURNAL EMPHASIZING THE FACTS AND IDEAS WHICH UNITE MEN RATHER THAN THOSE WHICH SEPARATE THEM

One of the chief purposes of this publication is to study from every angle the machinery—not only for the *advancement* but for the *diffusion* of scientific knowledge.

It has recently used articles outlining the aims and purposes of:

**THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE**  
**THE AMERICAN COMMITTEE ON INTERNATIONAL INTELLECTUAL COOPERATION**  
**THE AMERICAN LIBRARY ASSOCIATION**

Similar articles outlining the objectives of many other organizations of this sort will be printed in forthcoming numbers.

Especial attention is given to the world-wide activities of the Commission on Intellectual Cooperation and, especially, to *Le Centre de Synthèse*, one of the foundations closely cooperating with the work of that Commission.

In recent numbers articles by the following persons have appeared:

E. E. Slosson  
J. K. Hart  
Walter N. Polakov  
Burton E. Livingston

Maynard Shipley  
Harry Stack Sullivan  
J. David Thompson  
Huston Thompson

There is, in each number, a feature entitled "The Thought Stream of the Modern World" collecting current statements showing recognition of the unutilized social potentialities in libraries, newspapers, motion pictures and radio. Regular monthly departments sift the most important current books and magazine articles.

THE MODERN WORLD makes a constant plea for "a statesmanship for science," a constant plea that scientists will more deliberately seek to influence the contemporary civilization in which they are certainly the most important element.

The magazine seeks to cooperate with every great organization studying or utilizing any part of the existing or evolving machinery for the diffusion of scientific knowledge. It is sent to most of the outstanding personalities, organizations, magazines and newspapers throughout the world. Nearly half the number of copies printed are sent to foreign countries.

**Specimen copy on request**

**Yearly subscription \$1.50**

**THE MODERN WORLD CO.**

**Publishers**

**331 N. Charles Street**

**Baltimore, Maryland**

# How to Use Key-Word Feature of News-Letter

In order to aid in catching the items that concern you and to facilitate clipping and filing, a key word in small capitals has been printed on the right of the line above each article. The key words used fit into any system of classification, whether it be a straight alphabetical file, a system of your own devising, the Library of Congress classification or the Dewey system.

Note that you can slip out any article without fear of damaging another article in which you might be interested, since editorial matter printed on the right-hand pages is backed by advertising, standing matter or a continuation of the article on the other side.

## Library of Congress Classification

The classification of the Library of Congress has come into common use in the libraries of the country owing to the publication of the Government of the card index of all new books. We print below a list of the subject tiles which are most used in the SCIENCE NEWS-LETTER... The full scheme of classification is contained in "Outline Scheme of Classes," issued by the Library of Congress.

B Philosophy.  
BF Psychology.  
G Geography, voyages, travel.  
GA Mathematical and astronomical geography.  
GB Physical geography.  
GC Oceanology and oceanography.  
GF Anthropogeography.  
GN Anthropology. Somatology. Ethnology. Ethnography. Prehistoric archaeology.  
GR Folklore.  
GT Manners and customs.  
GV Sports and amusements. Games.  
HC Economic history and conditions. National production.  
HE Transportation and communication.  
HF Commerce.  
HM Sociology. General.  
L Education.  
M Music.  
N Fine arts.  
P Philology and linguistics.  
Q Science. General.  
QA Mathematics.  
QB Astronomy.  
QC Physics.  
QD Chemistry.  
QE Geology.  
QH Natural history.  
QK Botany.  
QL Zoology.  
QM Human anatomy.  
QP Physiology.  
QR Bacteriology.  
R Medicine. General.  
S Agriculture. General.  
SB Field crops. Horticulture. Landscape gardening. Pests and plant diseases.  
SD Forestry.  
SF Animal culture. Veterinary medicine.  
SH Fish culture and fisheries.

SK Hunting. Game protection.  
T Technology. General.  
TA Engineering. General.  
TC Hydraulic engineering.  
TD Sanitary and municipal engineering.  
TE Roads and pavements.  
TF Railroads.  
TG Bridges and roofs.  
TH Building construction.  
TJ Mechanical engineering.  
TK Electrical engineering and industries.  
TL Motor vehicles. Cycles. Aeronautics.  
TN Mineral industries. Mining and Metallurgy.  
TP Chemical technology.  
TR Photography.  
TS Manufactures.  
TT Trade.  
TX Domestic science.  
U Military science. General.  
V Naval science. General.

## Dewey Classification

The main divisions of the Dewey Decimal Classification, used in many libraries and by many individuals, is given below for the convenience of those who wish to use this system:

000 GENERAL WORKS—  
010 Bibliography  
020 Library economy  
030 General cyclopedias  
040 General collected essays  
050 General periodicals  
060 General societies  
070 Newspapers  
080 Special libraries. Polygraphy.  
090 Book rarities  
100 PHILOSOPHY—  
110 Metaphysics  
120 Special metaphysical topics  
130 Mind and body  
140 Philosophical systems  
150 Mental faculties. Psychology  
160 Logic  
170 Ethics  
180 Ancient philosophers  
190 Modern philosophers  
200 RELIGION—  
210 Natural theology  
220 Bible  
230 Doctrinal. Dogmatics. Theology  
240 Devotional. Practical  
250 Homiletic. Pastoral. Parochial  
260 Church. Institutions. Work  
270 Religious history  
280 Christian churches and sects  
290 Ethnic. Non-Christian  
300 SOCIOLOGY—  
310 Statistics  
320 Political science  
330 Political economy  
340 Law  
350 Administration  
360 Associations. Institutions  
370 Education  
380 Commerce. Communication  
390 Customs. Costumes. Folklore  
400 PHILOLOGY—  
410 Comparative  
420 English  
430 German  
440 French  
450 Italian  
460 Spanish  
470 Latin  
480 Greek  
490 Minor languages  
500 NATURAL SCIENCE—

510 Mathematics  
520 Astronomy  
530 Physics  
540 Chemistry  
550 Geology  
560 Paleontology  
570 Biology  
580 Botany  
590 Zoology  
600 USEFUL ARTS—  
610 Medicine  
620 Engineering  
630 Agriculture  
640 Domestic economy  
650 Communication. Commerce  
660 Chemical technology  
670 Manufactures  
680 Mechanic trades  
690 Building  
700 FINE ARTS—  
710 Landscape gardening  
720 Architecture  
730 Sculpture  
740 Drawing. Decoration. Design  
750 Painting  
760 Engraving  
770 Photography  
780 Music  
790 Amusement  
800 LITERATURE—  
810 American  
820 English  
830 German  
840 French  
850 Italian  
860 Spanish  
870 Latin  
880 Greek  
890 Minor languages  
900 HISTORY—  
910 Geography and travels  
920 Biography  
930 Ancient history  
Modern  
940 Europe  
950 Asia  
960 Africa  
970 North America  
980 South America  
990 Oceania and polar regions

## ABOUT BUYING BOOKS—

We know how much trouble it sometimes is to get the book that you want.

So if you want to add to your library any book reviewed or noted in the SCIENCE NEWS-LETTER, or any book in print—just remit to us the publisher's price and we shall rush the book to you postage prepaid.

Don't hesitate to consult with us on your book problems.

# Newspapers Know

the value of timely information. SCIENCE SERVICE supplies the wide demand for scientific news through the medium of its ten services. These services are daily, weekly and monthly—the prices are such that any newspaper can purchase one or more of them however inelastic the budget may be.

Check the services below you feel will benefit your immediate community the most—and send us the name of your editor and his paper. We will gladly send him samples of our services.

**Daily Science News Bulletin** is a daily service to newspapers, large and small. Three to five up-to-the-minute vivid stories are at the editor's disposal in each mailing.

**Illustrated Feature Articles**, issued each week, are our most pretentious product. They are written on timely subjects and are complete with photo-prints, suitable for use in Sunday or special editions.

**Telegraphic Specials** give to the editor news of the large scientific meetings of importance. Each day during meetings such news is wired to newspapers by one of our staff on the scene.

**Why the Weather** is issued each day—and in it Dr. Charles F. Brooks, meteorologist, tells the "why" of climatic conditions that puzzle. Weather conditions near and far are brilliantly, cleverly explained.

**The Star Story Map** is a monthly article concerning the inhabitants of the sky. It is illustrated, thus each star is definitely placed for the readers of this feature.

**Isn't It Odd** is a weekly feature dealing with the oddities of the folk, little and big, in the world of Nature.

**Nature's Notebook** is a daily feature of special appeal to boys and girls who love the small folk of wood and field and sky. Grown-ups, also, are interested in this illustrated service.

**Current Radio** is a daily feature that gives to the radio enthusiast instructive knowledge of this new wonder and teaches him not only to RECEIVE but to SEND. Clear line-drawings accompany each article.

**Science Shorts** comprises from forty-five to fifty authentic sentences of scientific trend and prove excellent whether used as fillers or as a daily feature in groups of six or eight.

**Ask Yourself** is a series of questions about comets and concrete, toads and torpedoes and other subjects of scientific interest, with short, pithy, yet accurate, answers.

We shall be glad to cooperate with you in the placing of any of our services in the newspaper you read.

---
