

The Years Have Taught Us

that only through the development of science does a nation, a profession, an industry progress. Science Service was established that the layman might know the world of science and its daily advancement. Science is not remote—the problems with which the inventor and discoverer contend are close at hand. Know step by step the way the men of science work to attain their objectives.

Science helps humanity. This no one can deny. Diseases that were rampant even in the last decade now yield to treatments that are no longer experimental. Scientists strive for a healthier race—sturdy folk who shall live longer and enjoy each day from dawn till dawn.

Through the newspapers the product of Science Service reaches two and one-half million readers daily. Millions more read the magazine articles and books of this national institution.

A definite need demanded a publication which would carry news, interesting and authoritative, into the schools and libraries of the country—into the hands of the individual who appreciates timely topics of a worthwhile nature. Thus the News-Letter was born. In it drama and romance are interwoven with wondrous facts, helpful facts.

The subscription price of the SCIENCE NEWS-LETTER is \$5.00 a year, 10 cents a week.

Special introductory subscription.....13 weeks for \$1.00.

Just attach dollar to the blank below and mail to us.

To Science Service, 21st and B Streets., Washington, D. C.

Send me the SCIENCE NEWS-LETTER for 13 weeks trial. I enclose my dollar.
